### CANADIAN NOTES.

Farmer's Sons Drowned While Bathing—Capitalist Coming West.

Winnipeg, June 17.—Two sons of Joseph Martin, a farmer residing near Wolseley, N. W. T., were drowned last night while bathing in Wolfe creek, both bodies were found. It is supposed the elder brother perished in an attempt to save the life of the younger.

Delegates at Winnipeg.

The U. B. R. E. delegates, who are making a canvas of various western branches by authority of the Dominion commission in connection with the strike with the C. P. R., arrived in the city to-day from Vancouver. Messrs. Fred. Halton and G. Brooks, officers of the Vancouver branch, are delegates.

Ames & Co.'s Statement.

Toronto, June 17.—A. E. Ames & Co. to-day issued a statement of their liabilities and assets, showing a surplus of $300,000. The firm offers to settle up with the unsecured creditors on the basis of 25 cents on the dollar, payable July 15th, and the balance in equal instalments of 25 cents on the dollar in six, twelve and eighteen months with interest at the rate of 6 per cent., other creditors to allow claims to run on as under former conditions. The firm claims that if it is given this chance it will pay 100 cents on each dollar it owes.

En Route West.

Montreal, June 17.—Leon Bourgeois, of Lyons, France, passed through the city to-day en route to British Columbia and the Yukon. Bourgeois's visit to Canada is for the purpose of inspecting those mining districts in which a large amount of French capital is invested. On his return to France he will prepare reports on the conditions that prevail in these districts, and the ultimate prospects of return from the outlay.

Interesting Point.

A unique case was entered in the police court to-day. Under the provisions of a law enacted by the Quebec legislature, the president of the United Brotherhood of Carpenters and Joiners has been summoned to appear before Judge Choquette to explain why the union is doing a beneficiary society business. The labor leaders claim that the law does not apply to them as they are not registered or incorporated. On the other hand, it is asserted, that this is simply an acknowledgment, as the union thereby evades the provincial law. The case is of great interest, as if the claims of prosecution are sustained it will compel the incorporation of the province of Quebec of all international unions which have a death or sick benefit fund.

# ASSASSINS OF RULERS MUST BE PUNISHED

## Russia Declares It Is Incumbent Upon King Peter to Avenge Deaths of Alexander and Draga.

(Associated Press.)

St. Petersburg, June 18.—An official note was published in the Gazette to-day recognizing Prince Peter Karageorgevitch as King of Servia, and welcoming his accession. In brief, the note declares that it is incumbent upon King Peter to avenge the assassination of King Alexander and Queen Draga, and expresses the conviction that he will know how to severely punish the regicides whose misdeeds should not be visited on the entire Servian nation or army. The note adds that it would be dangerous to the tranquility of Servia to leave the crime unpunished. The text of the note follows:

"A week has now elapsed since the day of the bloody revolution at Belgrade, an intimation of which could not be given to the Imperial government in the customary official form because legal authority was lacking in Servia.

"Strictly adhering to her standpoint of non-intervention in the internal affairs of the Balkan states, and at the same time finding it impossible to hold any intercourse whatever with the persons who arbitrarily usurped power, Russia has awaited the conclusion of the troubles in order to define clearly her attitude towards the events in the Kingdom of Servia.

"When the Skupstina and Senate assembled in extraordinary session on June 15th, the legal order of things was re-established, and Prince Karageorgevitch was unanimously elected King. The Prince, complying with the request of the national assembly, has consented to ascend the throne of Servia under the name of Peter I. Immediately after the proclamation the new King telegraphed to the Czar asking his Imperial Majesty to recognize him, whereupon the reply of His Majesty in confirmation of this was sent.

"The Imperial government, while hailing the election of the new monarch, scion of a glorious dynasty, and wishing all success in the task he has so well begun, to the supreme head of Servia which is allied to Russia by ties of religion, can nevertheless not refrain from expressing the confident hope that King Peter will be able to give evidence of his sense of justice and firmness of will by adopting measures at the outset to investigate the abominable misdeed, which has been committed, and to mete out rigorous punishment to those traitorous criminals who have stained themselves with the infamy attaching to regicides. Of course, the entire Servian nation or army cannot be held responsible for the crime which revolts public conscience, yet it would be dangerous to Servia's internal peace not to exact expiation for the revolution carried out with violence by the military. Such neglect would inevitably react in an unfavorable manner on the relations of all the states with Servia, and would create for Servia serious difficulties at the very commencement of the reign of King Peter the First. The Russian co-religionists offer to God supplications for the repose of the souls of King Alexander and his consort who have met an untimely end, and they invoke the blessing of the Almighty on the rule of King Peter for the welfare and prosperity of the Servia people."

Changes in Constitution.

Belgrade, June 18.—It is understood that the chief modification in the constitution of 1888 deal with the curtailment of the King's prerogatives, but His Majesty will still remain chief of the army. There will only be one chamber having a proportionate representation of the various parties. The constitution will be very liberal, and the changes made are important in this respect that they completely alter the existing cumbersome machinery necessary to modify the constitution. The King will be deprived of the power of incurring supplementary expenditure, and the ministers will be solely responsible to the Skupshtina, which will have absolute control of all budgets, the Senate being abolished.

It is reported that the treasure found in the Konak included the sum of $1,000,000, being part of the proceeds of the recent loan and $400,000 which had been secretly reserved from the amount credited to the war ministry and given to Queen Draga.

To-day a leaflet giving the text of Emperor Francis Joseph's telegram to King Peter was circulated, but the strictures on the murders of King Alexander and Queen Draga were so slurred in the translation that they were almost incomprehensible. The telegram, however, was otherwise so sympathetic that it was accepted here as being eminently satisfactory.

Attended Service.

Geneva, June 18.—King Peter attended a Te Deum service to-day at the Russian church in honor of his election to the throne of Servia. His Majesty was loudly cheered.

The Pope and Ex-Queen.

Rome, June 18.—An investigation of the report, published by a news agency in the United States yesterday, that former Queen Natalie of Servia, mother of the late Alexander, has written to the Pope announcing her intention to revisit Rome shortly to consult with the Pontiff regarding her entering a convent, shows that the Pope on receiving the news of the tragedy at Belgrade merely conveyed his condolence to Queen Natalie, adding that he hoped she would find in religion sufficient consolation to enable her to endure her affliction. Queen Natalie replied, thanking the Pope for his paternal solicitude and recalling with emotion her visit to the Pontiff in May of last year.

### OPERATION SUCCESSFUL.

A Reply to Attacks Made on Prof. Lorenz's Treatment of Hip Dislocations.

(Associated Press.)

Milwaukee, Wis., June 18.—A statement authorized by Adolph Lorenz, of Vienna, has been issued by two local physicians, answering repeated attacks which have been made on Prof. Lorenz's treatment of hip dislocations. The statement says:

"We deem it due to Prof. Lorenz to contradict the rumors that have been afloat for some time to the effect that Prof. Lorenz's treatment of little Miss Armour was unsuccessful. Prof. Lorenz treated but one hip in this case, the other having been more or less successfully reduced by other physicians on former occasions. The family is more than satisfied with the result. Miss Lotita now runs about and up and down stairs and plays like other children."

### GUNBOAT MISSING.

Fears Expressed for Safety of Costa Rican Warship.

San Francisco, June 18.—The steamer Acapulca, which has arrived from Central American ports, reports that fears are expressed at Panama for the safety of the Costa Rican gunboat Cariaria, bound from Punta Arenas to Panama. This gunboat was long overdue at Panama.

### BANK OF ENGLAND RATE.

(Associated Press.)

London, June 18.—The rate of discount of the Bank of England was today reduced from 3½ to 3 per cent., the strength of the bank's reserve being regarded as fully justifying the reduction.

### THE FRASER RIVER.

The following reports were received at the meteorological office this morning:

Quesnel, 8 a. m.—Water has fallen one inch since 5 p. m. yesterday.

Kamloops—Water has fallen three inches since 4.30 yesterday.

### SHIP OVERDUE.

Left the Sound for Antwerp in December and Has Not Yet Arrived.

(Associated Press.)

Seattle, June 18.—Fears are entertained for the safety of the British ship Bermuda, which sailed on December 22nd for Antwerp, cement laden, for this port. The British ship Buford left Antwerp after the departure of the Bermuda, and she reached the Sound about two weeks ago.

### DESTROYED BY FIRE.

Mills and Elevator Burned—An Employee Perished in the Flames.

(Associated Press.)

Kansas City, Kas., June 18.—The mills and elevator of the Kansas Milling Co. were destroyed by fire last night, entailing a loss of $100,000. Thomas Yount, an employee, was burnd to death. J. S. Severing, president of the mill, was severely burned.

### BLOWN TO PIECES.

Twenty Men Were Killed by Explosion in Lyddite Factory at the Woolwich Arsenal.

(Associated Press.)

London, June 18.—Fourteen men were killed and thirteen injured by an explosion in the lyddite factory at the Woolwich arsenal this morning. Several of the victims were literally blown to pieces. The building was completely wrecked. The roof was blown off and the interior collapsed. The explosion is attributed to the bursting of a shell.

There were many pathetic ones about the gates of the great arsenal, where thousands of relatives of the employees besieged the officials for information.

More Men Missing.

London, June 18.—Six additional men are missing, and it is believed they were blown to pieces. The remains of the victims were collected in buckets.

### IN HONOR OF PRESIDENT.

Review of Troops at Aldershot Will Take Place on July 8th.

(Associated Press.)

London, June 18.—The review of troops at Aldershot, which was to be held by King Edward on June 22nd, and the unexpected postponement of which caused some comment regarding the King's health, has been fixed to take place July 8th, in honor of President Loubet, who will then be on his visit to England.

### THE ASCOT RACES.

King Edward and Queen Alexandra Drove to the Course From Windsor Castle.

(Associated Press.)

London, June 18.—King Edward, Queen Alexandra and other members of the royal family drove from Windsor Castle to Ascot to-day in semi-state with postillions and out-riders in scarlet and gold liveries. As usual, the gathering of society on Ladies' Day at the races was very large, and Their Majesties were accorded an enthusiastic reception.

# REDISTRIBUTION IN BRITISH COLUMBIA

## THE COMMITTEE HAS REACHED AGREEMENT

### Supplementary Estimates Brought Down—Mr. Tarte's Amendment Defeated by Majority of Fifty-Two.

(Special to the Times.)

Ottawa, June 18.—Over five million dollars' supplementary estimates for the current year, ending June 30th, were brought down this morning. There is $6,000 for dredging in British Columbia; $45,187 for Quesnelle, Atlin and Port Simpson-Hazelton telegraph lines; $12,000 for Vancouver harbor; $4,000 for public buildings; Hardy Bay wharf, $2,100; Salmon River, $3,000; Alberni-Clayoquot, $1,050; further amount for new steamer, British Columbia, $9,000; government of the Northwest Territory, $255,000; government of the Yukon, $203,642; Yukon telegraph lines, $175,418.

Mr. Tarte's Motion Defeated.

The vote against Mr. Tarte's amendment was the largest of the session, there being 52 of a majority for the government. The amendment was that it was the bounden duty of the government to revise and readjust, without any delay, the present tariff so as to maintain a fiscal policy adequately and firmly protective of the large national interests at stake; and also that it was the duty of the government to carry out the electric transportation policy.

Redistribution.

The redistribution committee made progress to-day. Prince Edward Island, Nova Scotia and British Columbia were completed. In Prince Edward Island Queens gets two members, Kings one and Prince one. In Nova Scotia Pictou loses one and Victoria is attached to Cape Breton. New Brunswick was allowed to stand over as to whether Albert was to be attached to Kings or St. John county. British Columbia was taken up next. A. Morrison was heard in respect to the division of Yale and Cariboo. It was decided to divide it into two constituencies, known the one as Kootenay and the other as Yale-Cariboo. Kootenay includes Rossland, Nelson and all portions east of Arrow and Kootenay lakes. Yale-Cariboo gets the remainder of the present Yale-Cariboo, including Grand Forks division. The villages of Hope and Yale were attached to Westminster. The city of Vancouver includes North Vancouver and South Vancouver, Moodyville and that portion of Richmond east of Howe Sound. The city of Victoria is a separate constituency. Nanaimo will include Esquimalt, Saanich, Cowichan and Nanaimo towns. The new constituency, which will be called Comox-Atlin, will include all that portion of Vancouver Island north of Nanaimo constituency, and all of the coast north of Vancouver constituency on the Mainland, including the Skeena and Atlin district. The name of Burrard will be dropped. British Columbia gets one new member.

Land Purchase.

J. G. Turiff, commissioner of Dominion lands, was before the agriculture committee this morning to give testimony concerning the arrangements made with the Saskatchewan Valley Co., which has been given the privilege of purchasing 275,000 acres of land at one dollar on fulfilling certain colonization conditions. This company purchased the land grant of the Regina & Long Lake railway from the company, and the lands it is restricted to purchasing from the government in addition to this are lands which the company refused to take as part of their land grant. Mr. La Riviere questioned Mr. Turiff as to rumors that he is or was connected with the company. Mr. Turiff stated that he has nothing whatever to do with the company, and, as a matter of fact, the arrangements with it were made while he was absent. A. K. Adamson, one of the company, is a brother-in-law, but Mr. La Riviere admitted that cut no figure. Mr. Turiff declared himself satisfied that no government official had any interest in the land company, and that no immigration were being directed to that land. It has already been stated before the committee that the Canadian department does not direct new settlers to any particular section of the country. People are left to exercise their own free will and choice.

### MAIL TO FAR EAST.

Imperial Commons Approves the New Canadian Pacific Contract.

(Special to the Times.)

Montreal, June 18.—A special cable from London to-day says: "The House of Commons acceptance last night without a division of Austen Chamberlain's motion approving the new Canadian Pacific mail contract to the Far East for five years, from April 7th, 1901, indicates that the British government accepts the Canadian government's assurance that an Atlantic fast mail service will be established at the earliest possible moment. Mr. Caldwell alone spoke. He said he hoped the Postmaster-General would take the first opportunity to terminate the contract. Austen Chamberlain made no reply and the motion was accepted."

### TO FURNISH POWER.

Company Formed to Utilize Water of Thunder Bay River.

(Associated Press.)

Detroit, June 18.—A special dispatch to the Tribune from Alpena, Mich., says: W. P. Smith, of Syracuse, N. Y., has promoted a project for Eastern capitalists for the utilization of the water power of Thunder Bay river. The new concern will have a capital stock of between $1,500,000 and $2,000,000, and expects to furnish power for manufacturing purposes.

### EX-MINISTERS SENTENCED.

Former Members of Bulgarian Cabinet Go to Prison for Eight Months.

(Associated Press.)

Sofia, Bulgaria, June 18.—Former Premier Ivanshoff, former Minister of Public Works Sheriff, and former Minister of the Interior Radoslavoff, who were indicted in November last on the charge of malfeasance in office, were sentenced to-day to 8 months' imprisonment at hard labor. The two first named were charged with illegal expenditure of public money. Radoslavoff's offences were of a political nature.

# NO CERTIFICATE WAS ISSUED IN VICTORIA

## One Produced by a Mrs. McCormick in Seattle Evidently a Forgery—Particulars of Case.

On Tuesday evening the Times reproduced from a Seattle exchange an account of one James McCormick, charged with bigamy. He was alleged to have married his first wife, Mrs. Annie McCormick, nee Smith, in this city, and the latter when seen by a reporter of the Seattle Times promptly produced the following certificate:

"This certifies that on February 15th, 1901, Mr. James McCormick, of Seattle, and Miss Annie Smith, of Seattle, were by me united in marriage at Victoria, B. C. Henry Barton, Just. Witnesses: Robert Belles, Jack Jackman, Bessie Limponeat."

This is very plainly a forgery. In the first place, investigation by a Times reporter at the office of Sheriff Richards this morning disclosed that no marriage license had been issued on February 15th, 1901. Another point is that on this side of the line no justice of the peace can perform the ceremony, and thirdly there was no J. P. by the name of Henry Barton in the city at that time, nor is there one now.

In her story to the Seattle reporter she said: "I have lived here for about two years. He has lived here from seventeen to twenty-five years, and is a member of Painters' Union, Local No. 300. He has not only made a mockery of our marriage, but has forged my name to cheques sent me by my father. He has in this way appropriated money sent to me by my father and has spent the money on himself. The union here knows what sort of a man he is and is with me in this matter. I met him here in the city, though I was working at Leary at the time. We went to Victoria to be married at his request. He knew Anna McClure about three years ago, before he did me, and just made our marriage a mockery so that he could wait for her until she was old enough to marry. She was only 17 when the ceremony took place last January. We have one child, William Clarence McCormick, now living with me. He was born February 24th, 1902."

McCormick does not deny what is said to be his second marriage. Indeed, it would be futile were he to do so, for the records in the auditor's office show the license very plainly. On January 5th, 1903, a license was taken out for a marriage between J. H. McCormick, of Tacoma, and Anna E. McClure, of Seattle. H. E. Taylor was the witness. As Miss McClure was but 17 years of age, her father, T. A. McClure, filed his written consent to the union. In the county clerk's office there is found the record of the marriage. It took place on January 8th, 1903, Rev. Frederick C. Lee, of Trinity M. E. church, in North Seattle, officiating. The parents of the bride were present.

McCormick in his cell entered an express denial of his first marriage. "I met Annie Smith in 1901," he said. "We were never married. No ceremony was ever performed. We agreed that when either of us wanted to go that would be all there was to it. I don't know why she has brought this action against me. She knows she can't prove it. She may trump up some license or other from Victoria, but it will be a forgery."

# FALSE ALARM AT CAMP MACAULAY

## SLUMBERS DISTURBED IN EARLY MORNING

### Somebody Sounded Alarm and Officers and Men Were Turned Out—Who Are the Perpetrators?

The Fifth Regiment was turned out at Macaulay Plains early this morning with the startling suddenness of a bolt from the blue. While the camp was wrapped in deep slumber an alarm was sounded and the officers and men roused to repel the foe that had the bad taste to perpetrate such an ill-timed attack. To say that it was a surprise is putting it mildly, for even the commanding officer was as much mystified as anybody, and marvelled considerably over the fact that he and subordinate officers should be kept in blissful ignorance of the affair.

It was a fine night for an attack, and an ideal hour in which to make it. Stygian darkness prevailed, darkness as deep as the slumbers in which the main part of the camp was enveloped. Not a sound was to be heard beyond the somnolent overtures which arose from every tent. There was no restlessness in the sleep of the gallant Fifth, no tantalizing expectation of being hurriedly roused to resist an attack, because had such been contemplated something of it would have leaked out. Besides the officers had been entertaining themselves and others from Work Point to a modest little soiree, and after performing the onerous duties of hosts would naturally not feel in good form for a night engagement. This was sufficient assurance that "fall in" would not be rudely sounded at an unholy hour.

Suddenly about half-past one a shot rang out a short distance away, followed by several others. There was stillness for a minute, and the officers and men who were awakened rubbed their eyes and asked what it all meant. Then loudly and clearly the silvery notes of the bugle sounded the reveille and "fall in," and a few officers non-coms., quick to grasp the situation, rushed among the tents, turning the men out in all positions and conditions. It was a thrilling moment, and the scene can hardly be described.

"Where are the enemy?" queried one stately officer as he emerged from the tent in great coat and pajamas, the last vestige of drowsiness being destroyed by his all-consuming wrath.

"Over behind those rocks," replied another, who appeared in his coziest lingerie. He doubtless thought that the lighter the apparel he wore the more rapid would be his pursuit of the foe.

"It's the navy all right," asserted another, as he bolted after ammunition. This was being distributed with feverish activity, the quartermaster-sergeant handing it out of his tent with one hand while he rubbed the sleep from his eyes with the other.

"Where is the foe? I long to get at them," shouted he of the pajamas as he glared ferociously in the direction from whence the sound of shots had come. The men were formed up and scouts dispatched from whence the sound of shots had come. They set forth in the most approved fashion, and felt rocks, trees and obstructions of divers descriptions, because it was as dark as Egypt, but not the enemy. They had disappeared bag and baggage. When this had been reported to headquarters the officers and men were excusably wroth. Here they had been roused from sweet oblivion by an alarm which some considered could be traced to the rich variety of refreshments served at the officers' dinner.

The camp authorities held a consultation, and finally came to the conclusion that somebody had put up a job on the camp, that some unrighteous individual had decided that an affair of this sort would be the best way to celebrate the anniversary of Waterloo. It was agreed that should the perpetrator be captured lynching and cremation without the ridiculous formality of a trial would be his portion. Upon learning of the false alarm the Times secret service department got to work and gleaned the following particulars which may be considered quite accurate: Some of the officers feeling that it would be unwise to retire so soon after dining began to feel lonely and determined to have company. They, therefore, thought it would be a good idea to rouse the hundred and twenty men in camp. They impressed the bugler into their service, and he of them fired eight shots from a revolver behind a rock a short distance away, while the trumpeter sounded the "fall in." The regiment did the rest. There were several new anathemas invented last night.

Officers Entertain.

The officers of the regiment endeared themselves at a little function last evening. An invitation had been extended to the officers from Work Point barrack, and among those present from the forces were Lieut.-Col. Grant, Capt. Macdonald and others. The D. O. C., Col. Holmes, was also there. The band was in attendance, and an excellent programme was rendered throughout the evening, during which refreshments were served. The regimental officers proved themselves to be ideal hosts.

A GUARANTEED CORN CURE FOR 25 CENTS.

Putnam's Painless Corn Extractor is guaranteed to remove hard, soft or bleeding Corns in 24 hours without pain. Take only Putnam's, it's the best.

# WHERE KING AND QUEEN WERE SLAIN

## SCENE IN ROYAL PALACE AT BELGRADE

### Little Attempt Has Been Made to Renovate Rooms Since Night of the Tragedy.

Belgrade, June 17.—The correspondent of the Associated Press to-day was allowed to inspect the palace in which King Alexander and Queen Draga were murdered.

The bedroom, which is furnished in empire style, remains in the same condition as when the King and Queen fled from it on the approach of the assassins. French novels lie on the King's table, and the Queen's toilet articles, perfumes and cosmetics cover her dressing table. The costly silk bed coverings are full of bullet holes, the conspirators having shot wildly in all directions, through and under the bed, chairs and tables, in their efforts to find their victims.

A simple wardrobe room, leading directly from the bedroom, was the scene of the final act in the drama. The apartment is lofty, but scarcely seven feet wide and fifteen feet long, and is furnished only with three great wardrobes. The officers who attended the correspondent showed the latter the blood-stained floor at one end of the room, where the King and Queen fell, and the broken Venetian shutter at the window through which their bodies were thrown to the ground below. A secret stairway leads through the floor to rooms in the southern end of the palace. By this stairway the helpless couple might have attempted to escape, but they were unable to do so, because the opening of the stairway was covered by a heavy chest. Escape, in any event, would have been impossible, as the soldiers who had surrounded the palace were so determined to kill the King and Queen that they had even placed cannon in front of the palace and were prepared to destroy the building in the event of failure to find their prey.

Each of the three rooms between the vestibule and the bed chambers showed marks of the tragedy. Mirrors were shattered, pictures and furniture were broken; there were bullet holes in the doors and in the oil portraits of the King, which were in every room. Contrary to the general understanding, but little effort had been made to renovate the apartments, except where carpenters were making two new doors to replace those which had been blown to pieces at the time the conspirators forced their way into the rooms occupied by the King and Queen. The royal apartments were simply and tastefully furnished, chiefly in Oriental style, and presented a home-like appearance.

The house of the King's adjutant, Lasar Petrovics, which was the first attacked, is even a greater wreck than the royal apartments in the palace. The entrance was completely destroyed by dynamite. The adjutant then escaped unhurt, but was killed later in the vestibule of the palace. A large bloodstain marks the spot where the officer died.

It was in a bare whitewashed room of the commandant's quarters, adjoining the palace, that Queen Draga's two brothers were shot while sitting on wooden chairs, which bear marks of the bullets.

The proceedings in the palace to-day showed the same absolute callousness which has characterized the actions of everybody in Belgrade since the tragedy. In fact, the correspondent's tour of the new palace might have been the "personally-conducted" visit of a tourist to some historical spot where a tragedy occurred very many years ago.

Emperor's Message.

Vienna, June 17.—Cordially-worded telegrams have been exchanged between Emperor Francis Joseph and King Peter. The Emperor's message follows: "In accepting the friendly notification of your accession to the throne, I desire to assure you without delay of my complete sympathy, and wishes that you may have a long and happy reign. May it be vouchsafed to Your Majesty to carry out successfully the noble mission devolved upon you by restoring peace, quiet and esteem to your unhappy land, so sorely visited by a succession of internal storms, and by raising it again after the severe fall which it recently sustained in the eyes of the civilized world, through the heinous and universally-reprobated crime. Your Majesty may rely on my support and friendship in executing this task, and you may be convinced that it will always be my heartfelt desire, as it is your own, to maintain and strengthen the friendly and neighborly relations which have existed so long between our two countries."

Britain and Servia.

London, June 17.—In accordance with his promise, Premier Balfour, in the House of Commons to-day, amplified the information regarding the attitude of the British government towards Servia. He said the diplomatic relations with Servia, which ended with the death of King Alexander, had not been renewed. The government had not considered whether it should mark its reprobation of the crimes which had disgraced the Servian capital by withdrawning the British minister. It, however, had been thought better that Sir George Bonham remain at his post and protect British interests. He would not be accredited to the new government until further information was received regarding the circumstances under which it had come into power. Those powers in regard to whose attitude the government had received information, had instructed their representatives to accept the provisional government as the "de facto" authority with which current business should be transacted.

DO NOT NEGLECT YOUR DUTY. REGISTER YOUR VOTE AT ONCE.

A London dispatch says: "Some alarm has been caused by the sudden and unexpected postponement until an unfixed date in July of the King's review of the troops at Aldershot, which was to have been held June 22nd. Possibly the review has been postponed in order that it may be held during President Loubet's visit to England."

Mr. Hanbury, the recently returned Arctic explorer, who has been studying the Eskimos, says they have no religion—not even a belief in a supreme being.

The beggars of Barcelona have just formed themselves into a trust.

TEARFUL OR CHEERFUL?

Whether a woman is tearful or cheerful depends not on what she has materially, but what she is physically. Many an indulgent husband is driven almost to despair by the tearful outburst of a wife who has "everything she wants." He wants to know what's the matter. But the wife can't tell. She only knows that she is depressed and despondent.

Such a condition is usually related to some form of womanly disease.

$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

Backed up in over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Mrs. Alice Adams, of Laboratory, Washington Co., Pa., says: "With many thanks I write to let you know how I am. I can say by God's help and your help I am well. I have taken six bottles of Dr. Pierce's Favorite Prescription and two of his 'Golden Medical Discovery,' and I can do all my work. I can't praise your medicine too highly. I will recommend your medicines as long as I live. If any one doubts this give them my address."

Keep the bowels healthy by the timely use of Dr. Pierce's Pleasant Pellets.

## ONTARIO LEGISLATURE.

### Premier Ross Yesterday Moved the Adoption of Gamey Report.

Toronto, June 17.—Shortly after 11 o'clock this morning, Premier Ross moved in the legislature to adopt the report of the royal commission in the Gamey bribery case. He took up the various charges and contended they had not only been not proved, but they had been disproved. In his peroration he emphatically declared that there was no conspiracy to bribe Gamey, and repudiated all knowledge of any such transaction. He would not remain in public life at the expense of honor, for the "bubble of power" was not worth wrecking the reputation of himself, his family and his party. In conclusion he said no record could be cleaner or clearer than that of his government in the matter of patronage as regards Gamey.

Mr. Whitney commenced his speech just before luncheon. Mr. Whitney spoke for two hours in the afternoon. He directed his attack chiefly on the judges, whose findings were so extreme that even Liberals could not accept them fully.

## JEWS KILLED.

### Report That Ten Young Men Were Beaten to Death By Cossacks.

Berlin, June 17.—The Tageblatt to-day, in advices from Lodz, Russian Poland, gives an account of disturbances there on Monday last. About 5,000 young workingmen, Jews, paraded the streets in an orderly manner, but as a socialist demonstration. The police, in view of the number of those engaged, called on the Cossacks for assistance, and then the police and Cossacks charged the workingmen, beating them with the flat of their swords and with their fists and mercilessly continuing the beating after a number of men had been arrested and were helpless, and further beating them when the prisoners were taken into the police station, where, according to the mail advices, blood "ran in rivulets." It is reported that ten young men were beaten to death, and that of the 100 who were arrested, all were severely wounded. Surgeons worked for five hours sewing up wounds after the fury of the police had been spent.

## IRISH LAND BILL.

### A Deadlock Arises Through the Rejection of John Redmond's Amendment.

London, June 17.—The deadlock which has arisen between Chief Irish Secretary Wyndham and the Irish leader, John Redmond, as a result of to-day's debate in the House of Commons, in which John Redmond's amendment to the land bill, abolishing the minimum prices at which the landlord may sell, was opposed by Mr. Wyndham, and rejected by the House, threatens to imperil not only the Irish land bill, but the existence of the government.

During the present session, the ministry has more than once escaped defeat because of support of the Nationalists, and while Mr. Chamberlain's fiscal policy renders the government's position precarious, the support of the Irish members is more than ever necessary to the ministers. Several Unionists supported John Redmond in the division lobby after having in the course of the debate vainly advised Mr. Wyndham to agree to a compromise.

As a matter of fact, had the Irish leader challenged a division earlier in the evening, the government would have been defeated and Mr. Redmond's omission to thus snatch an advantage from the absence of many Unionist members seems to indicate his desire to do everything possible to ensure the passage of the bill and endeavor to induce the government to reconsider its position. The whole body of Nationalists voted in support of John Redmond's amendment, with the result that the government's majority was reduced to 41 votes. The Liberal leaders at a meeting to-night resolved not to challenge Mr. Chamberlain's zollverein proposals by a formal resolution in the House of Commons, but to confine themselves to attacking his policy whenever an opportunity offers.

## MAILS FOR HOME.

### Hon. Clifford Sifton Leaves Liverpool—Canadian Case in Boundary Dispute Practically Completed.

Toronto, June 17.—The News London cable says: "A hundred free trade Conservative members of parliament are about to hold a meeting to consider their position, and a group of protectionist members, said to number nearly a hundred are also to do likewise.

"Under pressure from the apparently omnipotent labor party, the Australian parliament recently passed a law refusing to subsidize mail steamers because they employ Lascars as members of their crews. Mr. Chamberlain's letter to Sir Edmund Barton on this subject has now been published. The colonial secretary deplores the action of the commonwealth, especially as the Lascars are fellow British subjects. Mr. Chamberlain adds that for the future Great Britain will be unable to co-operate in the payment for Australian mail contracts, and suggests that Australia's position in the matter is anti-Imperial.

"Lord Rosebery, Mr. Joseph Chamberlain, the Duke of Devonshire and Duke of Argyll, have promised to preside over meetings to be held in the autumn under the auspices of the Canadian emigration office. There is a tremendous demand for maps of Canada from continental sections, emigration agents and newspaper offices. Over 5,000 maps have been sent out in answer to these demands from across the channel.

"Hon. Mr. Sifton sails to-day by the Oceanic, with Sir Thomas Lipton and Pierpont Morgan as fellow passengers. He says the case in reply to the American claim in the Alaska dispute is now practically completed, and that the documents will be exchanged about July 3rd. The date for the assembling of the tribunal had not been definitely arranged. The minister of the interior says he is delighted with the work now being done through the Canadian office here, and expects to see the influx of desirable settlers into Canada steadily increased."

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

# THE PRESBYTERIAN GENERAL ASSEMBLY

## INDORE COLLEGE MATTER DISPOSED OF

### The Reports of the Century Fund, Temperance and Sabbath Observance Were Adopted.

At Tuesday's session of the Presbyterian General Assembly at Vancouver the usual loyal messages to His Majesty the King and to the Governor-General were ordered to be sent.

Dr. Herridge, convener of the special committee to consider the case of Dr. Wilkie, late principal of the Indore College, Central India, presented his report as follows:

"The committee appointed to consider whether or not it is advisable to reopen the case of the Central India Mission, as adjudicated upon by the last general assembly, begs to report that, having patiently investigated the matter committed to its care and heard, at length, all parties interested, it would express its unqualified confidence in Dr. Wilkie's singleness of purpose, great ability and integrity of character, and would acknowledge the eminent service which he has rendered to the church's mission in Central India, both in its education and evangelistic aspects. At the same time it believes that the foreign missions committee has acted with much wisdom and patience in its conduct of the whole trying situation, and that the course taken by the last general assembly was the best available one under the circumstances, and therefore advises that the question be not reopened before this assembly. Nevertheless, in view of the fact that the evidence brought before it seems to show that the attitude of Dr. Wilkie towards the other members of the Presbytery of Indore is not more responsible for the trouble than their attitude towards him, the committee would suggest that a previous recommendation of the F. M. C. be carried into effect, and that a commission be appointed, with assembly powers, to investigate the affairs of the mission and take action as may be deemed best in view of all the interests involved in it, and that in the meantime strenuous efforts be made by the F. M. C. to secure for Dr. Wilkie some suitable field in conection with the foreign mission work, for which his high gifts and his great enthusiasm so well fit him, and to which he has dedicated his life."

D. J. McKinnon seconded the adoption of the report, which carried.

Dr. Herridge submitted the report of the hymnal committee, which showed that 74,108 books of praise had been sold during the year, from which royalties amounting to $2,052.26 had been received. The report was adopted.

Dr. Warden presented the report of the century fund, which he stated would be the last report of this work. The total amount received towards the fund was $559,685.33 and there are still outstanding subscriptions amounting to $29,100. The fund has been disbursed as follows:

Eastern Section.

| | |
|---|---|
| Home Mission | $ 5,250 00 |
| Augmentation | 2,625 00 |
| Foreign Mission | 13,125 00 |
| Presbyterian College, Halifax | 17,500 00 |
| Church Building, N.B., P.E.I., etc. | 21,000 00 |
| Aged and Infirm Ministers' Fund | 10,500 00 |
| Foreign Mission Building | 8,750 00 |

Western Section.

| | |
|---|---|
| Home Mission | $ 26,250 00 |
| Augmentation | 13,125 00 |
| Foreign Mission | 17,500 00 |
| French Evangelization | 13,125 00 |
| Montreal College | 35,000 00 |
| Queen's College | 35,189 16 |
| Knox College | 35,000 00 |
| Manitoba College | 35,000 00 |
| Church and Manse Building Fund | 43,750 00 |
| Home Mission Building Fund, North Bay and Algoma | 8,750 00 |
| Aged and Infirm Ministers' Endowment Fund | 52,500 00 |
| Widows' and Orphans' Endowment Fund | 52,500 00 |
| Foreign Mission Building Fund | 38,750 00 |
| Augmentation Building Fund | 21,875 00 |
| French Evangelization Building Fund | 17,500 00 |
| Salary of Agents, Sub-Agents, etc. | 23,874 68 |
| | $548,459 84 |

Leaving a balance on hand of $ 11,225 49

Over and above the amount received for the common fund, there have been paid in connection with the century scheme, the sum of $33,677.68 for denominational objects, not directly included in the scheme. Adding these to the amount above named received by the treasurers of the church, the total thus far got for the educational, benevolent and missionary work of the church is $593,353.01, and there are still unpaid subscriptions amounting to $29,100, the large bulk of which, it is hoped, will be got in within the next few months. When these are received the actual total receipts for common fund purposes, in connection with the century scheme, will reach the $600,000 aimed at from the beginning. In addition to this there has been paid in connection with the century effort, $984,163 for the reduction of debt on church property, so that the total amount raised in conection with the century fund has been about $1,600,000.

Of the balance some $2,000 would be required to meet the cost of the memorial volume and of the souvenir cards to be given to the young people of the church who have aided the effort. The committee further recommended that all subscriptions not yet paid in be forwarded to the agent of the church, western section, and that he be instructed to distribute the same, at the close of the year, pro rata, to the several funds to be benefited by the scheme as originally launched.

Before the motion was put Dr. Gordon moved, seconded by Dr. Herridge, that in view of the valuable services rendered by Dr. Campbell in his work in connection with the fund and of his subsequent illness which has resulted in almost utterly incapacitating him for future ministerial services, the assembly grant him a small annual allowance; $500 or $600 was the suggested amount of the allowance. After a brief debate on the subject this matter was referred to the consideration of a special committee and the century fund report was adopted.

Judge Forbes moved the adoption of a resolution setting aside Sunday, 6th March, 1904, as Bible Sunday, when special collections should be taken up for the British and Foreign Bible Society. Adopted.

The memorials in the cases of Mr. Swartout, missionary to the Indians on the West Coast of Vancouver Island, were read. In these Mr. Swartout appeals from the action of the Presbytery of Victoria in refusing him ordination, owing to certain action taken by him in endeavoring to obtain a conviction against persons supplying Indians with liquor. The case was referred to a special committee.

At the evening session the Rev. Mr. Leitch introduced the report on church life and work. In the course of an able review of the work accomplished by this committee, Mr. Leitch mentioned that in comparison with the increase of population, Sunday school attendance was falling off, which was largely due to Sunday secular attractions. Respecting family worship the returns showed that about 50 per cent. of the families in the church held family worship, the detail returns showing that the observance of this varied from 5 to 95 per cent. in the congregations.

The report was adopted, as was also a motion on temperance, which was in effect as follows:

That the assembly, recognizing the intimate connection between the peace and safety of the home and the curbing and suppression of the liquor traffic renews its testimony as to the debasing character of that traffic, and reasserts that the Church of Christ can make no compromise with a traffic so antagonistic to all human happiness. It rejoices at the wonderful growth of temperance as manifested by the result of the recent plebiscite in Ontario, and hopes that the people will continue to exercise their influence in this direction.

The report of the Sabbath observance and legislation committee was adopted, on the motion of Rev. W. Leslie Clay, of Victoria, supported by J. Charlton, M.P. Two hundred cases of Sabbath desecration had been taken up and stopped through the efforts of this committee. Mr. Clay also related the successful efforts put forth in Victoria to stop Sunday excursions.

During the consideration of this report Mr. McLennan rose to ask the assembly three questions: 1. Did the assembly approve of or sanction missionaries taking trains on the Lord's Day to reach their mission stations? 2. Does the assembly approve of the conduct of ministers using the Lord's Day to travel to their homes, as is often done in returning from the assembly? 3. How does the assembly reconcile the traveling to and from the assembly on the Lord's Day, as has been done to come here, with the spirit of this report?

The assembly then adjourned.

### WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, June 18.—5 a. m.—A high pressure area is central in Oregon and Washington, and showers have been general both there and in this province; temperatures are somewhat below normal. In the Northwest a moderate high barometer area is central in Manitoba, but a considerable depression covers the Territories. Temperatures are moderate. Thunderstorm conditions are very general and thunderstorms have occurred at Edmonton, Calgary, Medicine Hat, Swift Current and Qu'Appelle, accompanied, however, with only light showers.

Forecasts.

For 36 hours ending 5 p.m. Friday.

Victoria and vicinity—Moderate or fresh northerly and easterly winds, partly cloudy and moderately warm.

Lower Mainland—Light or moderate winds, generally fair and moderately warm.

Reports.

Victoria—Barometer, 30.17; temperature, 51; minimum, 51; wind, 2 miles N.; rain, .03; weather, cloudy.

New Westminster — Barometer, 30.18; temperature, 54; minimum, 54; wind, 4 miles S. E.; rain, .01; weather, cloudy.

Kamloops—Barometer, 30.02; temperature, 58; minimum, 56; wind, calm; weather, clear.

Barkerville—Barometer, 30.06; temperature, 48; minimum, 46; wind, calm; rain, .04; weather, cloudy.

San Francisco—Barometer, 30.04; temperature, 56; minimum, 56; wind, calm; weather, clear.

Edmonton—Barometer, 29.86; temperature, 58; minimum, 58; wind, 4 miles E.; weather, clear.

# Lactated Food

## Is the Baby's Best Nourishment.

When mothers take the trouble to test Lactated Food, they are soon convinced that it is far ahead of all other prepared foods as a nourisher and life-giver for the baby.

The manufacturers of Lactated Food are anxious that every mother in Canada should give their food a trial; and, in order to have this done, they offer to send free of charge, by mail, a full sized can. It is earnestly hoped that all mothers who have babies, and who have not yet given Lactuated Food a test, will send in their names and addresses to The Wells & Richardson Co., Limited, 200 Mountain St., Montreal, P. Q.

Lactated Food is a source of life, health and strength for weak and sickly babies, and the free trial tin offered to mothers may be the means of saving some little life.

## THE IMPROVEMENT OF SHAWNIGAN FISHING

### Meeting of the Game Protection Association at Tourist Association Rooms Last Evening.

At the Tourist Association rooms last evening a meeting of the Fish and Game Club was held, when a number of important matters were considered. Charles Hayward presided.

Two questions of vital interest to all sportsmen were discussed. The first was the report of W. C. Ferneyhough, who made a careful inspection of the fishing conditions of Shawnigan lake. The other was the reported infractions of the Game Act, by the killing of grouse out of season. Consideration of the latter resulted in a decision to offer a reward of $25 for information leading to the conviction of anyone of an infraction of the Game Act.

Mr. Ferneyhough's report follows:

To the Executive of the Fish and Game Club:

Gentlemen:—At your request I have examined Shawnigan lake, which I find a sheet of water about five miles long, varying to a mile in width, and up to 100 feet deep. There are several small streams running into it, especially the three marked upon the sketch attached.

The bottom of these streams being of clean gravel, they make the best of spawning grounds. No. 1 at the head of the lake deserves special attention, it being a most suitable place for a fish hatchery at the falls above the road.

The lake is an ideal one for fishing purposes, it is full of shoals and bars, and being plentifully supplied with water weeds containing also an immense amount of the best of feed, namely, the larvae of many kinds of water flies, sticklebats, etc., these water luscects commencing with the caddis bait in February and every month increasing in variety and numbers, till midsummer, and lasting till the close of the season. This I think the primary cause of anglers having such poor takes, for the fish are over-fed. From observation they seem to take the larvae upon its leaving its case, previous to the growing of its wings.

From inquiries I learn that the fish are decreasing both in size and numbers since the advent of the catfish, which was unfortunately introduced into this and other waters about four years ago, and have increased with alarming rapidity, and now if the trout spawned upon the gravel bars in the lake the catfish would most undoubtedly do a deal of harm, but if the trout spawned as they should do, up the little streams, the case may be different. From my knowledge of this, the mud catfish, I do not think he would trouble to go up the fast-running streams, he preferring the muddy bays and flats to the fast-running gravelly streams, but these spawning grounds ought to be watched during the spawning season, which, I believe, is about the middle of November, and then more would be known.

There is still a large amount of fish in the lake, but they are fast degenerating, having bred in and in for so many generations that they are getting smaller and smaller all the time. This is also very noticeable in Sooke lake.

I might here suggest to your serious consideration the advisability of introducing an entirely new spawn of fish into the lake and country, something worthy of the sportsman's steel; something that will rise at the fly all the year round; something that is too large for a sardine factory, namely, the Loch Leven trout, along with English brook trout (Fontanalis). The conditions of the lake in every way are identical with the home of the above fish, and I guarantee that in about four years they would be well up in the pounds. These fish are the best of fly feeders, the best of fighters and never go near salt water.

I notice a large quantity of salmon fry, that for some reason or other refuse to go to sea, and I am also told that these fish die in large quantities every year about October. Not having seen any of these dead fish it is hard to say what the cause is, but perhaps the life of these species is limited, and their time has come.

I notice that the outlet of the lake has become clogged up with hard pan. I should suggest that a small ditch about a foot wide and a foot deep be made, and perhaps during the rainy season it might cut its way larger. There are two little log jams lower down stream which might receive a little attention.

As to the falls, the first one, a double fall of about 11 feet and 6 feet, I should suggest a fish ladder of about 90 feet.

No. 2 fall, near the bridge, would require a 25 feet ladder, and the falls below the bridge would require about a 70-foot ladder.

I should suggest a ladder of about 24 inches wide, 10 inches deep, with 12-inch riffles about 3 feet apart, all made of 12x2 plank. Probable cost of lumber $60, some nails and iron rods and a few days' wages to two or three men. This would be effective and cheap and far superior to the blasting theory, for in the first place the land owners might object and the sawmill company would have something to say, and then there would have to be that fearful ordeal, an "order-in-council," before you could proceed with your blasting, which would be a job only fit for the Dominion to take up, with its large surplus behind it.

I prefer the fish ladders anyway, for with these you have complete control, for you can shut them off at will.

I must thank the various residents at Shawnigan for their hospitality and information so generously given, which greatly assisted me in rendering this, my report, to your worthy consideration.

W. C. FERNEYHOUGH.

After the reading of the above it was decided to ascertain the cost of ladders and, if feasible, to have them installed.

Mr. Ferneyhough's suggestion regarding the restocking of the lake was taken into earnest consideration, and inquiries were authorized to be made as to the total cost of importing the fish suggested. If favorable replies are received sportsmen may look forward to seeing Shawnigan lake restocked with a species of fish which will provide much more sport than those at present

The present system of providing for the enforcement of the fishery regulations was discussed at some length. In this connection the chairman read the following letter from Hon. R. Prefontaine, Minister of Marine and Fisheries:

Minister of Marine and Fisheries, Ottawa, Canada:

June 6th, 1903.

Dear Sir:—Referring to my letter to you of the 14th March last, I find that the matter of dividing up the province of British Columbia into several inspector's districts cannot be considered until such a stage is reached in regard to a mutual arrangement with the province as to the fishery matters as will enable some permanent scheme to be adopted. It will not be possible, therefore, to consider your suggestion as to placing a person in charge of the Vancouver Island fisheries.

R. PREFONTAINE.

Charles Hayward, Esq., British Columbia.

The meeting shortly after adjourned.

## "HYMNS AND HYMNISTS."

### An Instructive and Very Interesting Lecture by Rev. J. F. Vichert Last Evening.

Rev. J. F. Vichert gave his lecture on "Hymns and Hymnists" in Calvary church last evening, assisted by a large choir and several soloists. The lecturer first referred to the potent influence which song exerts upon character and conduct, and the place which it has always held in connection with religion. Attention was called to the great hymns of the Bible, and the 97th psalm was rendered by the choir, with a tenor solo by G. F. Watson. The characteristics of a true hymn were pointed out, and Dr. Holmes's "Lord of All Being Throned Afar," named as a perfect exemplification of these.

Rev. Mr. Vichert next proceeded to give some account of the history of hymnology, and in this connection two compositions that have come down from the early church. The Te Deum" and "Jerusalem the Golden" were admirably rendered, R. Grant's baritone voice being heard to splendid advantage in a solo in the latter. Some quaint and grotesque selections from some of the early hymns, read by the lecturer, greatly amused his audience. "Rock of Ages" was named by Rev. Mr. Vichert as the most popular hymn in the English language, and it was very sweetly rendered by Mrs. A. J. Clyde. Some of the hymns by Ray Palmer and Miss Elliott's "Just as I am without one plea" were next considered. Then Luther's great reformation hymn, "Ein Feste Burg," which Frederick the Great called "God Almighty's Grenadier March," was taken up, and after some account of its history was sung by the choir.

The concluding part of the lecture was devoted to a consideration of the work of Isaac Watts and Charles Wesley. The former was the founder of English hymnology, and has given in all some 600 hymns. Charles Wesley wrote many more, a number of which are of a higher order than the best written by Watts. Among Wesley's hymns the most famous is "Jesus Lover of My Soul," which was given as a concluding number by the choir. The setting used provided for contralto and soprano solos, the former of which was taken by Mrs. H. R. McIntyre and the latter by Mrs. L. H. Nicholson, both being most effectively rendered. This number was perhaps the best and most beautiful on the programme. The choir, which was under the leadership of G. F. Watson, and which was largely augmented for the occasion, did excellent work throughout. At the conclusion they were served with refreshments by the ladies of the church. J. G. Brown and Mrs. Currie, who were announced to sing solos, were unable to be present owing to the reception to the general assembly at St. Andrew's church.

DO NOT NEGLECT YOUR DUTY. REGISTER YOUR VOTE AT ONCE.

There will be no strike in the anthracite regions of Pennsylvania growing out of the refusal of operators to recognize the credentials of District Presidents Nicholls, Fahy and Dettrey, selected by the joint executive board of the United Mine Workers as the miners' representatives on the board of conciliation. The convention of the United Mine Workers has elected the three district presidents by districts as representatives, and the operators through President Bear of the Reading Co. announced that this action was satisfactory.

## "THE DUSTY MILLER"

### And White Bread.

Most millers are bitter enemies of Grape-Nuts for business reasons, for white bread for Grape-Nuts contains the whole of the health-giving grains while the patent white flour in universal use to-day is made with the most healthful part of the wheat left out.

A miller of Newark, Ohio, who has studied the subject, says of Grape-Nuts: "I began by using the food once a day, then twice a day, and for the last six months three times a day, and I confidently affirm that I have received more real substantial benefit from the use of Grape-Nuts than from all the other things I have tried. My trouble was indigestion and kidney disease.

"I began to receive relief at once, and as I am a practical millwright and miller as well, I can see and understand the philosophy of such a nutriment as Grape-Nuts, and why its use gives us such good results. The continued use of patent flour bread will produce injury sooner or later, because the true life-sustaining and life-giving elements of the wheat berry are eliminated in the manufacture of patent flour.

"My unasked-for advice to all is to use daily a nutriment like Grape-Nuts that retains all the vitality of the grain. For this very reason there is more direct virtue in the daily use of Grape-Nuts than in all the medicinal tonics in the world that crowd to over-flowing the shelves of drug stores.

"The restaurant where I take my meals keeps Grape-Nuts on hand to accommodate me and others who eat to live and enjoy life and health." Name furnished by Postum Co., Battle Creek, Mich.

Grape-Nuts can be served in a variety of ways—from plain breakfast food to the novel and delicious Grape-Nuts Ice Cream. See the little recipe book in each package.

## A SITE SELECTED FOR SEA BATHING

### SHELTERED LOCATION FOUND AT FOUL BAY

### Plans Will Be Prepared for Erection of Bath Houses—Ideal Conditions.

Foul Bay, which lies about two miles from the city hall, in direct line as the crow flies, will in all probability be the place selected for Victoria's sea baths. Those of the city council and Tourist Association who drove out to the bay yesterday afternoon for the purpose of inspecting the location as a suitable one for the purpose mentioned were very favorably impressed. The party comprised Charles Hayward, the president of the Tourist Association; Herbert Cuthbert, secretary; Ald. Cameron and Vincent, Anton Henderson, Stephen Jones and a couple of press representatives. After leaving the city streets, Fairfield road was taken just beyond the cemetary, and then over a few short streets which wind by a number of unused and unfenced lots, to the beach.

Here the association, as already announced in the Times, have the offer of a lot facing 250 feet on the bay in the most sheltered portion, with a depth of 200 feet. This property has been offered by a local syndicate for an annual rental of $50 for five years, with the option of purchase at the expiration of that time. Compared with prices of other properties in the neighborhood this is considered most reasonable. Having the offer before them the association are reasonably sure of the extension of the tramway to the bay, and all they ask the city to undertake is to erect a bathing house costing not more than $750.

The party who visited the beach yesterday found an ideal spot for this structure, having satisfied themselves first that the location was all that could be divided. The day was probably as cool a one as comes in summer weather, yet down at the bay there was not a breeze blowing. There was not a ripple on the water. After descending an embankment of twelve or fifteen feet one finds himself on a long shelving beach absolutely free from shingle and covered with a firm sand, so desirable for a resort such as is proposed. Seaward there is a narrow channel giving the bay a horseshoe appearance, and at the entrance to this are a number of rocks from which the bay has derived its name. The lot on which the association has an option is in the northeast corner, and includes a number of rocks, which lead out into the bay, and on which it is intended to erect the bathing house. These rocks stand about eight or nine feet above the surface of the water at low tide, and have in the back ground a great deal of shrubbery. Logs are strewn all round the beach, and the question mostly discussed by the members of the party was the probable damage which might result from this drift wood during the high winter tides. Architect Thomas Hooper accompanied the party and made observations preparatory to giving an estimate for the building, sufficient timber for the foundation of which could be found right on the spot. The president of the association had a rough sketch of a building such as he would suggest, and this seemed to convey the general idea of the character of the building required. The plan outlined a two-story structure with a pavilion that would provide all the conveniences for bathers, and that would be easy of access from the shore.

A number of fine views of the bay and of the children in bathing were taken by Mr. Cuthbert. The party left the beach convinced that in every respect the bay, which is about the size of James Bay, is an ideal one for the baths.

It is feared that a brother of Hugh Clark, M.P.P., may have been one of the victims of the water-spout horror at Heppner.

## MORE BODIES RECOVERED.

### Remains of One Hundred and Thirty Victims of Cloudburst Have Been Interred.

Heppner, Ore., June 17.—Seven bodies of flood victims were taken from one pile of edbris to-day. Fear causes the inhabitants to seek high ground at night, and every cloud adds to the apprehension of a repetition of the recent disaster. Many men declare they will desert the town. Business has been abandoned. An official estimate shows 60 people missing, and undoubtedly more. This is in addition to about 130 bodies already recovered, making a total death list of nearly 200.

The whole row of houses next to the creek was swept away by the torrent of water. Spectators of the calamity describe the structures as falling like card houses. The dwellings were tossed about like bobbins, and most of them fell completely to pieces. The town had perhaps 250 houses, nearly 200 of which were demolished. The whole business parf of the town would have been swept away had not the Palace hotel, a heavy brick structure, diverted the current. Houses on brick foundations fared better than others because the flood could not so easily wash under them.

Only a few of those who escaped the flood were severely injured. A. Abramsick, who was rescued, died to-day.

The bodies of Dr. Vaughn, postmaster, and his wife, were found to-day locked in each other's embrace. A foot of each body was all that first came to light. Mrs. Vaughn's dress was intact and she still wore her jewellery. At the railroad depot a live 2-year-old baby was found yesterday in a grain sack in a pile of drift. The mother was rescued a short distance further down stream.

George Conser's experience was most extraordinary. Conser was sitting in his house with his wife when the flood picked up the house, and the floor of the front hall bulged outward, letting in torrents of water. Conser and his wife fled upstairs. While the husband and wife were upstairs a partition fell in on them and held them down to their necks in water. They thought their last moment had come and kissed each other good-by, but a friendly current took the house shoreward. There the structure was all but demolished. When the waters abated, Conser kicked out a window and with his wife escaped.

# Curse -OF- DRINK

CURED BY

**COLONIAL REMEDY**

No taste. No odor. Can be given in glass of water, tea or coffee, without patient's knowledge.

Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed inebriate, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

INDORSED BY MEMBERS OF W.C.T.U.

Mrs. Moore, Superintendent of the Woman's Christian Temperance Union, Ventura, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards and the cures have been many. In many cases the Remedy was given secretly. I cheerfully recommend and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere and by mail. Price $1. Trial package free by writing or calling on Mrs. M. A. Cowan (for years member of the Woman's Christian Temperance Union), 2204 St. Catherine St., Montreal.

Sold in Victoria by THOS. SHOTBOLT, 59 Johnson Street.

## IRON AND OTHER INDUSTRIES.

The opposition in the Dominion parliament, led by Mr. Tarte, is moving in favor of "adequate protection" to all manner of industries held to be suffering through the competition of foreigners. The agonies of the unprotected are not very apparent. There is not a closed factory in the Dominion. The men who have their money invested in industries are apparently in no danger of spending the remainder of their days in the poorhouse. Of course they are not averse to being granted the privilege of charging the consumers of Canada higher prices for the wares they manufacture. They would be fools if they objected. They have all the business they can handle at the present time. They have publicly announced that if they could secure ten thousand more mechanics there would be an ample market for the increased production made possible.

The general prosperity of any country cannot be increased by giving undue advantages to any particular class. It has become the fashion for governments to interfere with and attempt to regulate the operation of industries. The majority of the people will insist that in imposing restrictions here and giving encouragement there the government shall deal as fairly as possible by all classes, giving undue advantages to none. It is not right for the state to make laws under the operation of which one comparatively insignificant class of the community shall become rich and wallow in luxury at the expense of all the other classes. Agriculturists are the predominant element in Canada, and in laying plans for industrial development their case must always receive the fullest consideration. Their industry is the foundation upon which the marvellous prosperity of Canada to-day rests. The home market for their products is now, and must remain for generations, an insignificant factor in the situation. If Canada could be made at a bound the manufacturing centre of the universe, she would still have farm products to export. The farmers of the Dominion cannot be imposed upon to-day as they were twenty years ago, when they were told the National Policy would make them all rich almost in the twinkling of an eye. They are collecting no bounties from the government for every ton of wheat or turnips they grow. They receive no protection whatever upon the staple products of the soil they cultivate.

Ultimately the bonus of seven dollars a ton paid for every billet of steel produced in the Dominion is taken from the pockets of the farmers. As a class the agriculturists have not objected very strenuously to this impost. But if it were proposed to listen to the arguments of the Conservative party and increase it there would soon arise a protest that would be heard from one end of the country to the other. The representative farmers in the House give eloquent expression to their opinions through their votes. Mr. Jabel Robinson, who defeated a Liberal in West Elgin, voted with the government on one of those "adequate protection" resolutions. Two Conservatives followed his example.

As a bounty of seven dollars a ton is not sufficient encouragement to create a boom in the iron industry of Canada, it would be interesting to find out just how much the steel magnates would like us to dig up for the purpose of setting them on their feet. They want "adequate protection," and the Conservatives are willing to give it to them. That means that all foreign steel products should be shut out of the country and its markets handed over to the native product. How much would they charge for their output under such circumstances in order to firmly establish themselves in this country, where we were told only a short time ago that iron and steel could be produced more cheaply than in any other section of the earth? As seven dollars a ton is not a sufficient bounty, we would probably be obliged to pay them somewhere between ten and twenty dollars a ton, only it would not be handed out directly through the public treasury, and we should not know the exact cost. That would be an advantage to the magnates, and it might also conduce to the peace of mind of the taxpayers. But what would the effect be upon the businesses of those who use steel as the raw material of their products? The result would be an upheaval all along the line. The government is bound to consider this aspect of the matter as well as the question of who pays the bounty. And that is the difference between methods of the present administration and those of its predecessor. The former never did consider. It simply blundered along, and the business of the country blundered along also.

We are told we must follow the example of the United States and Germany. May we be permitted to hope that Canada shall be able to work out her industrial salvation without handing herself over to the domination of millionaires and trusts, as the United States has done. Is there a thoughtful individual in the world to-day who will venture to say that the great natural resources of the United States would have lain dormant for an indefinite period but for the adoption of the policy of extreme protection that has resulted in the multiplication of millionaires, anarchists, and what in less democratic communities would be called paupers? We are thankful to say we have hitherto managed things better in Canada. There is no country in the world in which wealth is more evenly distributed or in which the standard of comfort is higher. We hope and believe such conditions will be made permanent, which can only be done by refusing the popular sanction to measures intended to give undue advantages to particular sections of the community.

## RUSSIA'S HAND.

Whatever her motives may be, Russia has set a good example to the powers in insisting that King Peter of Servia shall mete out adequate punishment to all concerned in the brutal assassination of King Alexander, Queen Draga and others connected with the royal household. The precedent set for those who hold that monarchical institutions are not in accord with the spirit of the age and should be upset by any means available may have had something to do with the memorial of the advisers of the Czar. Or deeper designs still, entirely political, may have inspired the dispatch of the document. Russia has a deep interest in Servia. The elaboration of her plan may follow the receipt of the declaration in favor of the punishment of the chief spirits in the murderous affair. The Servian army was admittedly the instrument through which the assassins worked. What will be the effect of the command of Russia upon the army? Will it be necessary for the forces of the Czar to see to the carrying out of the orders of His Imperial Majesty? These are the questions, probably, that will occur to European diplomats. It is certain that the note will create a sensation within the circle of the great nations.

When the news of the murderous affair was first given to the world, the probable attitude of the great states of Europe caused a good deal of speculation. There was a practically general agreement that the butchers ought to be punished. But Servia, being nominally an independent state and theoretically responsible to no higher authority for the management of her internal affairs, there was apparently none endowed with authority to compel her to observe the usages and bow to the ethics of the age. Now that Russia has intimated her view of the matter, the other powers will be heard from. But as the army of Servia cleared the way for the elevation of Peter and set him upon the throne, and must be his instrument for the infliction of punishment upon the assassins of the late king, how can he turn to it and tell it to execute judgment upon itself as the chief offender? There is the interesting point, and the point at which Russia will come in and perhaps be in no hurry about going out. In fact, it is said that Russia was at the bottom of the conspiracy in the first instance. So that the whole disgraceful affair may be her creation. The course of events in the East from now on will be worth watching.

An anti-divorce league has been formed, which aims at establishing branches in every state in the American Union. But the men make the laws, and what is the use of expecting greater restrictions in them when the male sex is compelled to seek relief from such outrages as that related by Judson E. Rice, of Grand Rapids, Mich., who is suing for divorce, basing his case on the alleged cruelty of his wife. He declares that a familiar pastime of Mrs. Rice was to sit up in the bedroom all night with the lights full on, singing and playing a violin. One night she accompanied her music with the following prayer: "O Lord, have mercy on that hog of a husband of mine in that bed my first husband bought."

* * *

It appears Great Britain has at last determined to capture her lost supremacy on the Atlantic. A dispatch from Glasgow to the Exchange Telegraph Co. says contracts for the construction of the two new monster Cunard liners, which are to be subsidized by the government, have been placed, one with a Clydebank and another with a Newcastle firm. The original design for these boats has been changed. The beam has been increased, and the displacement is to be 35,000 tons. The horsepower is placed at 70,000, which, it is estimated, will give a speed of 26 knots an hour. The original estimated speed for these boats was 23 knots an hour. It will take a few years to build such monsters. By the time they are ready for the water they may have competitors. However, the British yards are still the fastest builders if they do not now build the fastest ships.

* * *

The New York newspapers have not been indulging in as much jubilation as usual over the performances of their America Cup defender. Nevertheless they are quite confident of the ability of Reliance to defeat Shamrock III. Britons are more hopeful than they ever were before. So the situation is quite interesting. We shall also keep up our spirits until the fateful 20th of August and thereafter. It will probably be a considerable time thereafter, as the breezes do not blow round Sandy Hook every day in midsummer.

* * *

A Vancouver newspaper man has discovered the "elixir of life." Hope the fraternity will have the first chance to "renew their youth." If the compound is ground out of materials in any way akin to those alleged to have been placed in other elixirs of which we have read, we hope the patentee will not be too explicit in his enumeration. We also hope it will prove effective in its "elixing" qualities. We were beginning to fear the "fountain of youth" had gone permanently dry.

* * *

Just to prove that she is a model cup yacht, Reliance has been shedding her topmast occasionally too. There have been so many accidents that she has not yet settled with Constitution the question of superiority. If Barr were sailing Columbia the probability is that the old boat would beat them both.

## CATARRHAL POISONS AND THEIR REMEDY.

The poisonous secretions from Catarrh are dangerous because they affect the stomach and bowels, giving rise to an unhealthy condition of these organs. Catarrh is the source of much ill-health, and was considered practically incurable until it was demonstrated to the satisfaction of the medical profession that by the use of Catarrhozone any case of nasal or throat trouble can be permanently and quickly cured. Catarrhozone by its unusual merit has enlisted the support and endorsement of the most prominent medical authorities, who freely state that any one giving it a trial is sure to receive permanent benefit. Sold for $1. Small size 25c. At druggists or Polson & Co., Kingston, Ont.

## STEAMERS COLLIDE.

## ESQUIMALT PREPARING.

Liberals of That Electoral District Are Getting Ready for the Election.

The meeting of the Esquimalt Liberal Association, held last evening, was well attended by representatives from all parts of the electoral district. The constitution and by-laws as reported were adopted, and the preliminary steps taken towards thoroughly organizing the riding for the forthcoming election.

The delegates present at last night's meeting spoke enthusiastically of the political situation in the district. They were convinced that Esquimalt would return to the next House the Liberal nominee. Throughout the constituency everything points to this, and the party is prepared to acquit itself with honor in the fight.

Going to work with a will the organization at the different points is being proceeded with. A week from Saturday there will be a meeting held at Metchosin for organization purposes.

## City News in Brief.

—Carpets taken up, cleaned and laid. Smith & Champion, 100 Douglas street.*

—Have your Upholstery and Mattresses repaired at Smith & Champion's. *

—Going to Vancouver or Westminster? Take the Terminal railway at 7.00 a. m. daily. *

—Cheap round trips on Saturdays and Sundays to Seattle and other Puget Sound points, on both Majestic and Rosalie. *

—Notice.—The Paisley Steam Dye Works has reopened at 130 Yates street, opposite Bishop's Palace, where Mrs. Allison will be pleased to meet her old customers and endeavor to give them every satisfaction in the future as in the past. J. & C. Allison. *

—Special services will be held this evening at St. James's church, to-day being set apart as a day of intercession in connection with the work of the Girls' Friendly Society. Rev. W. D. Barber, rector of St. Saviour's church, Victoria West, will deliver an address.

—There was a good attendance at the social held last evening under the auspices of the Ladies' Aid of Centennial Methodist church. A programme, including musical selections, recitations, etc., was rendered and each number was heartily applauded. Refreshments were served during the evening.

—The early closing by-law affecting the gents' furnishers in this city will come into effect to-morrow, Friday, and provides that all such stores shall close at 6 p.m., excepting Saturdays, nights before public holidays, and the last 18 days in December. As these stores now close at 7 p.m. it will give employers and employees more time to enjoy the pleasant evenings to come. The by-law is for all time, and not only for the summer months.

—The annual communication of the Masonic Grand Lodge convened this morning at Vancouver. A number of local delegates left last night in order to be present to-day. They follow: Rev. C. E. Sharp, J. W. Phillips, W. Bailey, A. McKeon, W. W. Northcott, E. C. Baker, R. Brett, Ald. Stewart, W C. Pope, W. Walker, Principal Paul of the High school, W. H. Houston, S. W. Edwards, P. J. Riddell, G. D. Christie and H. McMicken.

—The local branch of the Lord's Day Alliance is putting forth strenuous efforts to awaken interest among the citizens in the Sabbath observance movement. To this end all the pastors of the city churches have been requested to preach on this question next Sabbath morning. At 4 p.m. a mass meeting will be held in the A.O.U.W. hall, Yates street, when an address will be delivered by Rev. A. Gandier, of Toronto, who is considered one of the ablest speakers in Canada. Rev. Mr. Gandier was a delegate to the general assembly of the Presbyterian church, advantage being taken of his visit here to have the aims of the Lord's Day Alliance set forth. An opportunity will be afforded at this meeting to increase the interest in this organization and to enlarge the membership of the local branch. A short report of the work already undertaken by the alliance will be submitted at this meeting for the benefit of those who have not been closely connected with the organization.

—House Awnings! Ring up Smith & Champion for estimates. All colors. *

—The Conservatives will hold an organization meeting to-night in Labor hall, Douglas street.

—Cheap excursions to Port Angeles, July 4th, by new steamer Clallam. Fifty cents for round trip. *

—The Daughters of St. George will give an ice cream social in the A.O.U.W. hall on Friday, June 26th.

—Ladies, watch the Elite millinery windows, 43 Fort street. Special reductions for Saturday and next week. *

—Fast steamers for Skagway. Dolphin sails June 18th and 28th; Humboldt sails June 23rd and July 3rd. E. E. Blackwood, agent. *

—On Saturday, the 20th inst., the King's Daughters' bazaar will be held at the residence of Mrs. Fisher, Metchosin. At 2 o'clock a steam launch will leave the Globe hotel wharf, returning in the evening.

—Divine service will be held at Congregation Emanu-El at 7:30 to-morrow (Friday) evening. Rabbi Montague N. A. Cohen will deliver an address on "Religious Tolerance and Treatment of the Jew," a lesson from Kischeneff.

—The death occurred last evening of Mrs. Robt. Hand at the family residence, Jubilee avenue. Deceased was 52 years of age and a native of Ireland. The funeral is arranged to take place to-morrow at 2:30 o'clock from the family residence.

REGISTER YOUR VOTE.

—The business lately carried on by me in co-partnership with Mr. R. Erskine having passed into other hands, I am not to be found at the store of the late firm, but at The Windsor Grocery Company, Government street (opposite Porter's). E. J. Wall, manager. *

—A garden fete will be given at the grounds of Mrs. Le Poer Trench on Saturday afternoon next in aid of the organ fund of Holy Trinity church, North Saanich. A splendid list of attractions has been prepared, including a gymkhana, archery and side shows. The fete starts at 3 p.m.

—Large audiences are attending the Edison theatre every afternoon and evening to witness the life of a gamester. This beautiful moving picture shows the beginning and ending of the life of a young man of family, who is led by bad associates to risk his savings at the gaming table. When all is gone he commits murder to try and cover up his misfortunes, but he is discovered, arrested, tried, convicted and executed. This picture is illustrated as no other film ever seen on canvas, and a well worded lecture accompanies it. There is also a large programme of novelties and specialties, with a beautiful illustrated song, which makes the entertainment well worth seeing.

—The Pollard Lilliputian Opera Co. will commence an engagement of six nights on Monday. This company, which is the only successful organization of the kind in the world, hails from Australia, and is recruited yearly in the city of Melbourne. They have made a number of tours through China, Japan, Australia, the Straits Settlements, Java, South Africa and Manila, and two years ago were heard in the Western cities of America. The youngesters vary in age from 6 to 13 years, and their training and talent is something marvelous to behold. They go through their parts like seasoned professionals, many of them showing more finesse and knowledge of the art of acting than most of their older brethren of the stage. "The Belle of New York," in which the company first appears, is one of the best works of the kind ever devised, and gives the children an admirable chance to display their talents. Master Teddie McNamara and Daphne Pollard are the stars of the organization, though each one in the caste is thoroughly competent. Our people certainly have a treat in store with the advent of the Pollard Co. There will be matinees on Wednesday and Saturday afternoons. Popular prices will prevail during the engagement.

—The monthly general meeting of the board of trade will be held to-morrow night. Important business will be discussed.

—Owing to the illness of Magistrate Hall the magisterial bench was occupied by W. W. Northcott, J.P., this morning.

—A gentleman called at the Times office this morning and complained of the actions of some individual in the park, who, he says, has been frightening ladies by following them. He mentioned an instance in which a lady was followed as far as her home by the man, who walked up and down outside the place. The matter has been reported to the police.

—Two Indians were fined $25 each or one month imprisonment in the police court this morning for being in possession of intoxicants. A klootchman was fined $5 for drunkenness and a white man $2.50 for a similar offence. The case of Martin Thomson, who was arrested by Detective Perdue yesterday charged with stealing 500 pounds of wheat from Brackman & Ker's mills, was remanded.

—Strawberries are more plentiful this season than was anticipated. To-day they are retailing at 12½ cents a pound, and are expected to drop to 10 cents very shortly. The good berries, however, are not likely to sell for less at any time, as all that cannot find a local market can easily be disposed of to the Mainland preservers. In fact it is stated that an agreement has been reached whereby all the surplus, if any, will be shipped without delay.

—Messrs. Hooper & Watkins, whose plans for the Carnegie library were successful in the competition, as announced in the Times yesterday afternoon, are to-day receiving the congratulations of their friends. Their design provides for a particularly handsome structure, which will be an imposing ornament to the district in which it is to be erected. The award of the judges will be confirmed at next Monday's meeting of the council. Specifications will then be drawn up, after which tenders will be called for.

—Since the inauguration of a temple of the Mystic Shriners in Victoria, it has prospered beyond the hopes of some of the most sanguine. The original officers carried out the initial ceremonial session splendidly, sparing neither time or expense in the preparations. Something like $2,000 was expended on this alone. Gizeh (the new temple) is now looking forward to holding a celebration here towards the end of August or the beginning of September. Should this take place Mystic Shriners from Tacoma, Seattle, Portland and other neighboring points would be invited to participate. At Saratoga Springs on July 8th the Imperial Temple of Mystic Shriners will convene. It is possible that a representative from Gizeh Temple will attend.

—A pretty wedding took place yesterday at St. Saviour's church, when Mr. Alfred E. Cave and Miss May Evans were united in the bonds of matrimony. The ceremony was conducted by Rev. W. D. Barber. Mr. W. J. Cave supported the groom, and the Misses Evans, sisters of the bride, and Miss E. Cave, acted as bridesmaids. The bride, who looked charming in a gown of white organdie and a veil with orange blossoms, was given away by her father. The church was tastefully decorated and crowded with friends and acquaintances of the contracting parties. A reception was held after the ceremony at the residence of the bride's parents, William street, Victoria West. Mr. and Mrs. Cave left last evening for Seattle, and on returning will take up their residence in Victoria West.

—Ald. Cameron has two notices of motion on the city hall bulletin board. The first of these which is important and self-explanatory is as follows: "Whereas, in the opinion of the council it is desirable to encourage the construction of buildings and other improvements, and, whereas, some years ago the council levied a rate on only twenty-five per cent. of the value of improvements, which was increased to fifty per cent. in order to meet extra expenditure, the council being limited to a low rate on real property, and, whereas, the act having been amended giving the council larger powers in the levying of rate, therefore be it resolved that the rate on improvements be levied on twenty-five per cent. of the assessed value thereof." The other notice is that he will move to introduce a by-law to be known as the "Tax By-law, 1903."

—S. B. Kitto, secretary of the Society for the Prevention of Cruelty to Animals, has forwarded circulars to pastors of churches throughout the province asking that appeals be made at services on Sunday, July 5th, for the proper observance of laws aiming at the comfort and welfare of dumb animals. The circular says: "Throughout the British Empire services will be preached on July 5th, on behalf of the work of this society, when it is hoped members will repeat their useful appeals on behalf of justice and mercy towards the lower animals. Special efforts have been made and cheerfully responded to by all denominations in order that sermons may be preached on that day throughout the province of British Columbia. No appeal for money is asked, as the society has no desire to divert the funds of the churches."

# COMMISSIONERS VISIT VICTORIA

## WILL STUDY SALMON AND SEAL CONDITIONS

### Professor David Starr Jordan and Dr. Evermann Are Here on the Way North.

Prof. D. S. Jordan, of sealing fame, he who invented the notorious branding machine which Victorians have reason to remember, is in the city. Dr. Barton Warren Evermann, of the United States fish commission, which is now heading North from San Francisco, accompanies him. The two arrived on the steamer Rosalie this morning, and are staying at the Dominion. After arrival here the two distinguished gentlemen made a number of calls on different officials, and this morning drove out to Shawnigan lake to make a short stay at one of this city's most famous summer resorts.

Dr. Jordan is head of the recently appointed commission which will go North on the steamer Albatross to make an investigation of the salmon, seal and halibut conditions of Alaskan waters. This commission is by far the most important of any of an industrial character that has ever been appointed to investigate conditions in that part of the United States. Its members are all experts in their respective lines, and the data which will be gathered is for the use of congress in formulating laws for the United States government of the fish and seal industries in the North.

The party is made up as follows: David Starr Jordan, president of Leland Stanford University; Dr. Barton, Warren Evermann, of the United States fish commission; Lieut. Francis Swift, of the navy, who will command the Albatross; Cloudsley Rutter, naturalist, of the Albatross; J. Nelson Wisner, a field superintendent of the fisheries commission; Dr. Harold Heath, of Stanford University; Dr. Charles H. Gilbert, of the same institution; F. M. Chamberlain, an assistant naturalist of the fisheries commission; Henry G. Fassett and Prof. H. S. Davis, of the Washington State University; A. H. Baldwin, an artist, and about 40 men, including the crew.

The commission will first undertake the study of the salmon and seal conditions, and then if it has time will devote its attention to the conditions of the cod and halibut. The Albatross left San Francisco several days ago, and it is expected has gone direct to Seattle. It is possible, however, that she may call at this port, as has been her custom in years gone by.

Prof. Jordan is best known locally among the commissioners because of the notorious branding machine which he brought into service for a couple of seasons on the Pribyloff islands, one of the principal breeding grounds in the Behring sea. The machine was a small electrical device which, when applied, was calculated to burn the fur, and so destroy its market value. It was used on the female seal, and in this way, it was thought, that there would no longer be any inducement for the killing of these little animals for their fur. But the scheme, in so far as the reports of men engaged in the industry were concerned, was a miserable failure. Seals were found that had been burned to the bone, and which had been left in such a condition after the application of the branding apparatus that they suffered a great deal, and the killing of them was only putting them out of agony. For years after the introduction of the machine skins were secured that had been commercially injured because of the brand, and even yet a stray one finds its way among a catch of a schooner.

MANY PROMINENT CANADIANS

Have Recently Testified to the Great Tonic Properties of Ferrozone.

Public men of recognized standing and importance, embracing many well known doctors, ministers and lawyers continue to endorse Ferrozone as a health-giving tonic of unusual merit. Certainly no remedy has ever showed such marked results in curing nervous diseases, rehumatism, stomach troubles and general debility.

Dr. Owens, the well known authority on nervous disease, has this to say of Ferrozone; "I have treated many severe cases of nerve exhaustion with Ferrozone. It supplies nourishment to the nerves in a concentrated form, and quickly restores lost strength. I consider Ferrozone a valuable preparation to prescribe for weak, over-worked nerves."

The Rev. W. D. Waltham writes: "When I think of the misery I endured before being cured by Ferrozone I feel it a duty to help in making its merits known as widely as possible. By this grand tonic I was cured of stomach trouble and continual headache. My wish is that many others will be benefited by Ferrozone."

Ferrozone strengths the organs that are overworked and out of repair. It uproots disease, and maintains such healthy conditions that sickness need never be feared. Price, 50 cents per box, or six boxes for $2.50, at all druggists, or by mail from The Ferrozone Company, Kingston, Ont.

FERROZONE ASSURES HEALTH

—Up to noon to-day Mayor McCandless had received no reply to his telegram to Ottawa regarding the dredge nor the expected letter from Sir Thomas Shaughnessy in reply to the communication addressed to him some time ago relative to the terms of the hotel agreement.

—To-morrow evening after a meeting of Victoria Camp, No. 52, Canadian Order Woodmen of the World, an ice cream social will be held, to which are invited all members, together with their friends. The entertainment has been arranged in honor of the newly installed officers, and it is the desire of the committee in charge to express the confidence of the order in the new officials by making this event an unqualified success. This is the first of a series of socials to be given during the summer months.

—A committee of the Independent Order of Foresters held a meeting last evening for the purpose of making definite arrangements for an excursion it is proposed to hold in the near future. Those delegated to interview the C.P.N. Co. to ascertain what could be done about obtaining a steamer for the occasion reported unfavorably. The only boat available was the Yosemite. Odd Fellows do not wish to take this boat, and therefore nothing was done. Finally it was decided to again interview the C. P.N. officials, and if no better arrangement can be arrived at it is probable that the project will be abandoned.

**Save Money at the "West End."**

THIS WEEK.

Our sale of the stock of Erskine, Wall & Co. enables us to so far undersell other grocers in Victoria that you can save from 20 to 25 per cent. on your purchases. Remember we secured their entire stock at an advantageous figure, and can sell the goods at wholesale prices and still have a fair margin of profit. This is worthy your earnest consideration. For instance, take these three articles:

1. Rocky Mountain Brand Condensed Milk, was sold by Erskine, Wall & Co. at 2 tins for 25c.; our price is only 10c. per tin.
2. Pure Gold or Sheriff's Jelly Powders, were sold by Erskine, Wall & Co. at 10c. each; our price is only 6c. each.
3. Sheet Gelatine, was sold by Erskine, Wall & Co. at 60c. per lb.; our price is only 40c. per lb.

These show the prices that prevail throughout the store.

# PROVINCIAL NEWS.

### KAMLOOPS.

An Indian named Joe Edwards was stabbed on Monday evening at the Indian reserve end of the South Thompson bridge. The names of his assailants are Alex. Leonard and Francis Basil, the former, it is alleged, doing the actual stabbing. It appears that these two Indians, who had been drinking, and another young Indian were seen going towards the bridge a short time before the stabbing took place. They were then squabbling and scuffling, and threatening language was used. Reaching the reserve Leonard and Basil began abusing their companion and Joe Edwards interfered, receiving two wounds in the chest. In the meantime his assailants, fearful for the consequences of their attack, rode away across the reserve, but were caught. The wounds received by Joe were fortunately not of a very serious nature.

### VANCOUVER.

R. G. McConnell, of the Dominion geological survey department arrived from Ottawa on Tuesday en route north. During the last two seasons Mr. McConnell has been engaged in exploration and geological survey in the Yukon, and his present trip is for the continuation of this work. He will probably remain north till late in October, and will occupy the major portion of his time in geological research in the vicinity of the mining camps.

A very pretty wedding was solemnized at the residence of Mr. and Mrs. George Kemp, 311 Cordova street west, on Tuesday evening, when Rev. R. G. MacBeth united in marriage Mr. Murray Baillie and Miss Mary Ella Kemp, both of this city. The ceremony was performed in the presence of a large number of friends, Miss Lizzie Allen attending the bride, while Mr. John Campbell acted as best man.

During a recess at Tuesday night's meeting of the school trustees, the committee on plans for the new High school building went over some matters of detail with Architect Blackmore, after which the committee reported, recommending Mr. Blackmore's plans, which were accepted by the board on condition that they may be discarded, should the board be unable to get tenders within or not exceeding the $70,000 agreed upon as the outside cost of the building.

After fighting the extradition proceedings brought against him for some weeks, Paul Watelet made up his mind on Tuesday to waive extradition and return to Spokane and face the charge of obtaining money by false pretences.

The school trustees have decided to organize a military camp for school children this year, probably at Buccaneer Bay. An attempt is being made to secure the tenting outfit of the provincial militia for the purpose.

Mrs. Loo Lin, wife of a wealthy New York Chinese merchant, who has been detained in San Francisco for three months by the customs authorities, is in Vancouver, going through to her husband in bond. The United States authorities decided to allow her to join her husband.

Patrick Dunlevy, an employee of P. Burns & Co., New Westminster, rancher, four miles from the city on the North Arm road, committed suicide by hanging on Tuesday morning. Capt. Pittindrigh decided that no inquest was necessary. No cause can be ascertained for the suicide.

### PASSENGERS.

Per steamer Queen from San Francisco—H Johnson, Miss McMarran and child, Miss Darling, Mrs B Wilson, E Caldwell, G Donaldson and wife, Miss Fraser, Mrs Daniels and child, W M Reilly and wife, Mrs Rodeigo, Miss Rodeigo, J Hilder, W A Coneta, wife and two children, M Black and wife.

## SPORTING

### THE OAR.

CLUB REGATTA.

Members of the James Bay Athletic Association interested in rowing will hold a club regatta on Saturday afternoon. The course will be from Coffin Island to the club house. The following will take part: F. A. McRae, F. E. W. Smith, J. A. Sutherland, A. George, J. E. Cornwall, P. Andrews, E. Robinson, J. C. Pendray, K. P. Wollaston, N. Gowen, D. Leeming, A. W. Belyea, A. Pewet, R. H. B. Pritchard, G. Jameson, E. Hiscocks, G. W. Knox, E. Brown, A. Riddell, W. E. Nason, H. E. Hobbis, J. Donaldson, W. Dingwall, C. S. Finlayson, W. T. Andrews, H. W. Lang, V. K. Gray.

### THE TURF.

ASCOT RACES.

London, June 17.—King Edward and the Prince of Wales were again present at the races to-day at Ascot. His Majesty's horse Mead was a great favorite for the Bleamai Stakes, but Stemilon took the race. The principal event of the day was the race for the Royal Hunt cup (a piece of plate valued at 500 sovereigns, with 1,500 sovereigns added), which was won by Kunstler. Imperius was second, and Handicapper was third. Kunstler won by a neck. Two lengths separated second and third horses. The result was a complete upset of all the calculations. All the placed horses were outsiders. Kunstler started at 33 to 1 against, Imperius 100 to 6 against, and Handicapper was 20 to 1 against.

### BASEBALL.

LOTS OF WORK AHEAD.

The local team has plenty of work ahead of them for the next three weeks. Commencing on Friday of this week they will play the Whatcom team two games. On the following Friday and Saturday the Vancouver team will in all probability be their opponents; on the 1st and 2nd of July the Multnomah Athletic Club team from Portland will play here, and on the 4th of July the team will play at Port Angeles. After these games the boys will meet the newly organized Everett team, who, under the management of Schock, are playing fast ball. Hoquiam, the star team of the Southern Washington League, will also play here during July. Mount Vernon with their crack team will be here some time during the coming month, so the fans have a fine lot of games to look forward to. These teams are practically the pick of the best clubs in the Northwest and should the local nine succeed in holding their own with them they can feel justly proud of their playing.

WHATCOM TO-MORROW.

The Whatcom nine will be over on Friday morning, the team being the same as that which played here earlier in the season, with the possible exception of a new pitcher to assist Galaski.

The local team will have their strongest nine in the field, and they will try hard to redeem themselves for losing to the Whatcom players at Whatcom. Emerson will do the pitching on Friday and Holness on Saturday. Chase will catch both games, as Smith's hand is still in bad shape.

MANY APPLICATIONS.

No less than twelve applications have been received for games here on the 4th of July. Most of them were from Seattle and Tacoma teams.

FERNWOOD v. ESQUIMALT.

On Saturday afternoon a match will be played between the Fernwood and Esquimalt intermediate teams. It is probable that the game will take place in the Caledonia grounds. The teams follow:

Fernwood—B. Robertson, catcher; Blackburn, pitcher; A. Shanks, first base; A. Gray, second; H. Herd, third; F. Carlowe, short stop; Camsusa, left field; B. Malcolm, centre; A. Jeffs, right field; J. McMillan, substitute.

Esquimalt—J. Lynch, pitcher; Annett, catcher; Potts, first base; Wensley, second; McArthur, short stop; A. Thom, third base; T. George, centre; S. Doran, right field; J. Doran, left field; subs., Roller and Beaney.

### BOXING.

TO-NIGHT'S CONTEST.

In another column are presented cuts of the two game "big" little fellows who are to meet to-night in a 20-round contest at the Savoy theatre. Both are in the very best of condition, and the event should prove exciting and interesting from start to finish. Herewith is a partial record of both men:

B. Snailham.—Won—Frank McConnell, 3 rounds; Spider Welsh, 3 rounds; Joe Bradshaw, 4 rounds; Joe Fields, 3 rounds; Jack Nolan, 4 rounds; Joe Bradshaw, 4 rounds. Knock Outs—Tommy Gilfeather, 8 rounds; Jimmy Ryan, 2 rounds; George Curran, 2 rounds; Billy Schoenbein, 3 rounds; Al. Crawford, 1 round; J. H. V. Dukey, 1 round, J. H. Faceo, 2 rounds, both in one night; Billy Connolly, 1 round; Jack Murphy, 1 round; Teddy Moran, 1 round; Kid Parker, 2 rounds; Jack Stone, 4 rounds. Draws—Tommy Gilfeather, 10 rounds; Tommy Gilfeather, 15 rounds. Lost—Kid McFadden, 8 rounds; "Mississippi," 8 rounds.

C. Attell.—Kid Howard, won, 8 rounds; Spike Tolev, won, 4 rounds; Joe Regon, won, 3 rounds; George Herman, draw, 15 rounds; P. Pont Ordway, won, 4 rounds; Jimmie Hamilton, draw, 10 rounds; Fred. Peterson, won, 4 rounds; Hugh McGordon, won, 6 rounds; Jack Doyian, draw, 6 rounds; Kid Howard, won, 6 rounds; Coon Johnson, draw, 6 rounds; Young Christie, won, 5 rounds; Young Kid McFadden, won, 2 rounds.

### LAWN TENNIS.

J. B. A. A. PLAYERS.

As previously announced, the second of the inter-club tournaments between the J. B. A. A. and Victoria club will take place on Monday and Tuesday. The J. B. A. A. will be represented by the following: Rithet and Carr Hilton, McRae and J. Leeming, E. H. Russell and K. Scholefield.

### LACROSSE.

MEETING TO-MORROW.

To-morrow evening a meeting of the intermediate players will be held at the V. W. A. A. hall, Victoria West, when preparations for the match with the Vancouver Crescents on Dominion Day will be considered. Arrangements for practicing will be made and other matters of importance discussed.

### LORD LISTER.

Probably not one in a thousand of those who owe their lives to Lord Lister at this hour ever heard his name. Wherever modern surgery (i. e., the Listerian method) is to be found, there they are; from Edward VII. to the nameless aboriginal treated at a missionary hospital. Lord Lister kept his seventy-sixth birthday recently. In June the University of London is to award him the honorary degree of D. Sc. Every foreign honor worth the having Lord Lister has long had, even to his presentment in marble on the face of a public building in Rome. Lister "built upon" Pasteur, at whose memorable funeral he represented this country. To the introduction of his method into obstetrics is mainly due the increased expectation of life amongst women in the past generation, the crisis of maternity in the past being only faintly suggested at the present day. Antiseptic surgery became an accomplished fact in Edinburgh just about thirty years since.

# NOTED VISITORS ARE IN THE CITY

## A HEARTY WELCOME ACCORDED DELEGATES

### Commissioners to General Assembly Are Charmed With the Capital of the Province.

The delegates to the General Assembly of the Presbyterian church invaded this city last evening. Victoria appreciating the importance of this visit is extending to them as usual a hearty reception. While the members of the Presbyterian church of the city have naturally had the most important part in the welcome, yet the city as a whole regards the visitors as their guests, and other denominations will vie with their Presbyterian friends in making the delegates feel at home during their stay in the capital. As Mayor McCandless said last night, the gates of Victoria are wide open to them, and the city is theirs during the time which they are the guests of Victoria.

The visitors compose an important body. Included among them are many of the most important divines and scholars of the great Presbyterian church in Canada. In addition to these there is a large body of lay representatives comprising leading public men and men at the head of their professions and callings from the Atlantic to the Pacific.

These men, delighted as they were with the trip through the province and with their Mainland experience, are simply in ecstacies with the city of Victoria. Many of them are paying their first visit to the city, and have expressed themselves as loath to leave it.

Many of the delegates, after two weeks spent in Vancouver, have persisted all day in bearing their umbrellas with them. A few days in this city will wear all this away.

The visitors in general are busy men, occupying responsible positions. They came out here to transact the work of the church, and have now finished their labors in that respect. They are now snatching a few days in which to take in the scene beauties of the province, and in particular of the capital city of British Columbia before returning to the turmoil of business life and cares.

The committee having in hand the reception in this city has arranged an itinerary which will give the visitors an opportunity to take in many of the most important points in the limited time which most of them have at their disposal. So delighted are they with the attractions of Victoria that in many instances the delegates have signified their intention of remaining over a few days longer. Many will therefore spend Sunday in this city. The visitors are given a free hand this morning in taking in the sights. This afternoon at 2 o'clock the reception committee escorted them to Esquimalt, where arrangements have been made to enable them to take in the points of interest. To-morrow afternoon it is probable that a trip to Willilams Head may be arranged.

The city pulpits on Sunday will be occupied by some of the most noted divines of the east, who are guests in the city. Rev. Dr. Fletcher, of Hamilton, moderator of the General Assembly, will preach in St. Andrew's church in the evening. In the morning that pulpit will be occupied by Rev. Dr. Scrimger, professor of the Montreal College. Rev. Dr. Herridge, of Ottawa, will occupy the pulpit of the Metropolitan Methodist church. Other announcements will be made later.

Among those included among the delegations are the following:

Rev. Dr. D. H. Fletcher, Hamilton.
Rev. Dr. R. H. Warden, Toronto.
Rev. Dr. R. Campbell, Montreal.
S. W. Fisher and wife, Almonte.
A. M. Greig and wife, Almonte.

R. McLeod, Ottawa.

Last evening the delegates were met at the wharf and the first part of the welcome to the city was accorded them. A large gathering met them, and included among them was His Worship Mayor McCandless and the reception committee from the Presbyterian churches.

Immediately after securing their rooms at the various hotels they gathered in St. Andrew's church, where a grand reception was accorded the visitors. While this was essentially a Presbyterian function, yet members of other denominations accepted the invitations extended, and were present.

His Honor Sir Henri Joly de Lotbiniere was among those present, and during the evening spoke of the importance of the visit of the assembly to the province. The help which the Presbyterian church promised to this province would, he felt assured, be appreciated by all. In the extension of the church's work in British Columbia he, on behalf of the province, was prepared to thank them. His Honor was given a most enthusiastic reception by the audience.

At the meeting, after a few introductory remarks by Rev. Dr. Campbell, His Worship the Mayor was asked to preside. In his opening remarks Mayor McCandless held out the threat that now that he had the opoprtunity of wreaking his vengeance on the many ministers who had preached long sermons he was moved to keep them for hours listening to him. He referred to the labors of the Presbyterian ministers in this city, and the great good they had accomplished in strengthening the home and civil life of Victoria. The gates of Victoria were never open more wide than on this occasion, and in the name and on behalf of the citizens of Victoria he welcomed them to the garden city of Canada.

Rev. Dr. Bryce, the retiring moderator, in replying to the welcome accorded them, spoke of the reception as the crowning feature of a grand welcome accorded them in the West. He spoke of the decision reached by the General Assembly to assign more men to the work of the church in the West.

Rev. W. Leslie Clay announced the arrangements for the visit to the city, and other delegates spoke briefly of the beauties of Victoria and the kindness which had already been extended to them. Among these were Dr. Armstrong, of Ottawa; John Charlton, M. P., Rev. Mr. McKinney, of Sydney, Cape Breton, Jas. Crail, of Montreal, and Dr. Falconer, of Nova Scotia.

The choir, led by Herbert Taylor, contributed a musical programme during the evening, concluding with Handel's Hallelujah Chorus. Mrs. Grenson, Mrs. Currie and Herbert Taylor also interspersed solos among the addresses.

The Ladies' Aid Society provided refreshments, including strawberries and cake, which were served during the evening.

## STOPPED IT

### People Can Laugh at Dyspepsia Who Have Use Dodd's Dyspepsia Tablets.

Most people interviewed with regard to the results obtained from Dodd's Dyspepsia Tablets have very little to say. "They stopped it; it's gone" is about the sum total of their remarks. W. H. Harmer, of Avonmore, N. B., says: "I was troubled with gas and food rising in my throat. Dodd's Dyspepsia Tablets stopped it."

Of course, that's only a little thing—if you haven't got it. It's only a small thing—if it's only beginning. But it can grow to tremendous lengths. It grows from discomfort to pain; from pain to agony. It so weakens the body that disease in other forms gets a foothold. The most eminent medical authorities state that Dyspepsia is the greatest menace to the health of men and women that the present day has to dread. But never forget thousands of others laugh at Dyspepsia because they can say,

"Dodd's Dyspepsia Tablets stopped it."

## THE YEAR'S WORK.

### What the Johnson Street Mission Has Done in the Past Twelve Months.

The following officers were elected at the annual meeting of the W. C. T. U. on Tuesday last: Mrs. Wm. Holt, president; Miss Aubin, secretary; Mrs. Gibson treasurer; Mrs. Burkholder, superintendent of evangelistic work, including the Johnson street Mission hall; Mrs. Wm. Bone, superintendent of flower work; Mrs. F. Adams, superintendent of mothers' meetings; Mrs. S. Johns, superintendent of systematic giving; Miss Aubin and Mrs. Deville, superintendent of literature.

The report of the secretary contained a review of the work accomplished in the past year. Reference was made to the Johnson street mission, and the successful manner in which it was conducted. The committee of management met monthly, and kept in touch with the work to the best of their ability. Mrs. Hall had been retained as matron. In August a garden party was held in aid of the mission, resulting in the realization of $40. A reception was held at the hall on New Year's day. During the year 777 lunches had been served, 356 of which were free, the charge for the others being nominal. The report further states that:

"The tables have been fairly well supplied with reading matter, magazines and papers being given by those friends interested in the work. The daily papers of the city have also been supplied free of charge. More help with this department of our work would be much appreciated. The New Vancouver Coal Company have kept us supplied with coal free of charge until the last three months, but under the new management we find that the coal will need to be paid for.

"The committee of management have added to their numbers by electing six gentlemen from the different churches in the city to assist them, hoping thus to extend their usefulness and enlarge their borders.

"We have again to thank the many kind friends who in different ways and upon different occasions have helped us in this work. Our work is humble, and to many it may be unknown, but we feel justified in carrying it on when we remember the words of Him who said, 'Inasmuch as ye have done it unto one of these the least of My brethren, ye have done it unto Me.'

"In closing the report of our work we commend the different features of it to the sympathy and support of the public of Victoria."

The treasurer's report shows the receipts and disbursements as follows:

Receipts.

## The Provincial Royal Jubilee Hospital.

(Incorporated 1890.)

The thirteenth annual meeting of the donors and subscribers to the institution will be held in the City Hall on Tuesday, the 30th June, at 4 o'clock in the afternoon.

Business: Receiving the annual report of the directors, the treasurer's statement for the year ending 31st May, 1903, and the election of directors.

The three following directors retire, but are eligible for re-election: H. D. Helmcken, F. D. Pemberton, and Alexander Wilson.

Donors and subscribers can vote for four members only. The City Council nominate five (5), the local government three (3), and the French Benevolent Society three (3), making a total of fifteen (15) directors. All donors of money, and annual subscribers of $5 and upwards are eligible to vote for the election of directors.

F. ELWORTHY, Secretary.
Victoria, B. C., 12th June, 1903.

IN THE ESTATE OF THOMAS RICHARD PORTER, DECEASED.

Notice is hereby given that all persons indebted to the above estate are required to pay the amount of their indebtedness forthwith, and all persons who have claims against the said estate are requested to send particulars thereof to or before the 25th June, 1903, to H. A. Porter, P. O. Box 542, Victoria.

Dated the 11th day of June, 1903.

ANNIE PORTER,
H. A. PORTER,
Executrix and Executor.

NOTICE.

Notice is hereby given that application will be made to the Parliament of Canada at its next session for an Act incorporating a company with its head office at Montreal, with a capital stock of one million dollars, to be known as "The Federal Oil Company," with the object of:

Manufacturing, buying and selling petroleum oil and other products of petroleum oil lands; and for said purposes, with authority and powers, to acquire and dispose of real estate, timber limits, mineral lands and other real properties; to put down wells, develop such lands, carry on the business of piping, storing, tanking and warehousing refined and crude petroleum oil and other products of such lands; to erect, sell, dispose of refineries, saw mills, steam or electric railways, and any other appliances, structures, or means necessary or convenient for the effecting of the above mentioned object; to issue paid up stock, preferred stock, or gold bonds, and to lease, purchase and otherwise acquire and to operate the business of any other companies, associations or kindred enterprises, to acquire and own stock in any other companies, or like enterprises; and with all other powers to be set forth in the proposed Act, or confirmed by The Companies Clauses Act.

LOUIS BOYER,
Solicitor for Applicant,
17 Place d'Armes Hill, Montreal, P.Q.
Dated at Montreal, P. Q., this 26th December, 1902.

NOTICE.

I give notice that it is my intention to apply for a lease of the foreshore for industrial purposes from a post on the north side of the lease granted me by the Canadian Pacific Railway Company of a portion of their right of way on Burrard Inlet to the point on the west side of Clark Drive, where said lease terminates.

F. G. VERNON.
May 23rd, 1903.

Dr. Agnew's Catarrhal Powder will cure most stubborn cases in a marvellously short time. If you've had catarrh a week it's a sure cure. If it's of fifty years' standing it's just as effective.

Dr. Agnew's Pills are the best.

40 Doses 10 cents.

Sold by Jackson & Co. and Hall & Co.—10

# THE DAWSON RUSH HAS COMMENCED

**KLONDIKERS COMING ON PRINCESS MAY**

**The New Steamer Clallam Makes Her Official Trial Trip on Monday Next—Marine Notes.**

Steamer Princess May, which is expected from Skagway to-morrow, will, it is believed, have the first contingent of Dawsonites aboard that has reached the coast this spring. According to Vancouver advices she has two hundred Klondikers with half a million dollars' worth of gold dust, comprising the first shipments of the year from Dawson. The Seattle steamer Humboldt was to leave the Lynn canal port at the same time, and it is thought has a number of the the three hundred and sixty passengers who arrived by train at Skagway. These are the passengers from Dawson. They came in on two boats, and are the vanguard of at least two thousand people who will come out within the next two or three weeks.

This was the news brought by Capt. Cann, of the steamer City of Seattle. The Seattle did not get a big crowd, and might have waited over a couple of days but for the fact that she has a full passenger and cargo list waiting to go north from Seattle.

Advices from Dawson tell of the arrest of Max Steinfelt and Sam Levy, charged with wholesale robbery. The police believe that they can account for where $10,000 worth of clothing has disappeared during the winter.

Lake La Barge broke on Friday and steamers are now en route from White Horse. The lake was unusually late in breaking this year. The arrival of the first steamers was the occasion of general rejoicing. Many staples were out of the market and nearly everything was 50 per cent. higher than normal prices. The steamer White Horse, the first down the river, arrived on Sunday.

The clean-up on Duncan creek this spring is estimated at $15,000. Considerable dead work was done during the winter, and the clean-up this summer will be ten times that amount.

The output of the Forty-Mile country this season will exceed that of any previous year. Jack Wade, Franklin, Chicken and Lost Chicken creeks are the best producers. Pratt & Leslie's hill claim on Lost Chicken will produce at least $50,000 this year.

**PROGRESSO'S FATE.**

The big steel steamer Progresso, which formerly plied in the coal trade between this Island and San Francisco, is a thing of the past. When Wrecker T. P. H. Whitelaw began work on the vessel, following the explosion that broke the steamer's back while she lay at San Francisco some months ago, the opinion was expressed that the Progresso might be rebuilt into a solid vessel, but as the work of getting the hull up from the bottom has progressed it has been found that the steamer's injuries are beyond repair. The forward half was beached a few weeks ago, and now the after end has been hauled up on the beach to be broken up.

**BACK FROM COAST.**

Ahousaht was the remote port of call on the steamer Queen City's west coast trip completed yesterday. Arrivals on the vessel report that the Chinese working the Wreck Bay placers are finding gold, but not in the paying quantities it was formerly found. The passenger list on the return voyage: Capt. Wilson, from Ahousaht; J. E. Sutton, of Ucluet; T. M. Baird, S. Woods and C. Currie, from San Juan, and Mrs. Gregory, from Carmanah.

**CLALLAM'S OFFICIAL TRIP.**

The new Sound steamer Clallam will make her official trial trip on Monday. She will carry a couple of excursions to Port Angeles from Victoria on the 4th and 5th of the coming month, and thereafter will immediately enter the Victoria and Seattle business, relieving the Rosalie, the slowest by almost a couple of hours of the two vessels now being operated on the route.

**WILL START ON SATURDAY.**

Two and probably more of the sealing fleet will be leaving port for down the coast on Saturday. The Enterprise and Umbrina are now ready, and it is expected that others will depart about the same time. They will ship their Indian crews on the coast.

**MARINE NOTES.**

A gentleman speaking to a Times representative this morning said he had recommended to the Tourist Association some time ago the purchase of a stern wheel steamer for service on the Arm. He had a vessel of such a description in view which could be operated with equal facility on both sides of the Gorge bridge.

Henry Augustine, a sailor, who assaulted Capt. Cormack of the ship Lamorna shortly before she sailed for Vancouver, has been sentenced to six months' imprisonment for the assault by two justices of the peace in the Terminal City.

The steamship Ascot did not call here yesterday on her way to Vancouver from the Orient. She has a large consignment of Japanese coal from Muroran, which, it is said, forms the last of the 10,000-ton order placed by the C.P.R.

Steamship Queen arrived from San Francisco last night with a good freight and a large passenger list. The Valencia will leave for the Golden Gate this evening.

Steamer Tees will sail for northern British Columbia ports to-night. She will carry a large number of laborers going to the northern canneries.

The barque Songate, which has been lying in the Royal Roads for the past month or so, has been chartered to load lumber at the Hastings mill.

Among those booked for passage on the steamer Valencia, bound for San Francisco this evening, are Mrs. W. R. Ross, Mrs. Christie, Miss Christie, Mrs. H. Stanton, Mrs. L. Green, Miss Patterson, Simon Caron, W. R. Ross, H. B. Kimball, John H. Schutte and wife, F. L. Oddie, James Sabiston, Dr. Minnes and wife, H. Matheson, Rev. Mr. Knowles, W. P. Butchart and wife and Edwin Smith.

A fleet of five Oriental liners are now on the Sound loading for Asiatic ports.

Steamer Nell sails for northern British Columbia ports this evening.

**PERSONAL.**

This evening's Charmer will bring down a party of prominent C. P. R. officials, consisting of G. M. Bosworth, fourth vice-president; E. V. Skinner, general agent, with headquarters at New York; T. C. Marcil, secretary to Mr. Bosworth; and E. V. Parsons, general manager of a line in Florida. The party have engaged rooms at the Driard, and will probably remain in the city a couple of days. While here, Mr. Bosworth will be interviewed by the Mayor and members of the hotel committee. In the course of an interview given to the Vancouver News-Advertiser, Mr. Bosworth said that in regard to the question of giving the Coast shippers a schedule of freight rates to Calgary as favorable as that given from Winnipeg to the Alberta city, the company could not see its way to do this owing to the higher cost of the haulage through the mountains. He referred to the great influx of settlers to the Northwest, and remarked that this should continue to create a large and steady demand for lumber and shingles from British Columbia. It should also largely increase the market for fruits, etc., from this province. The company was doing all it could to encourage fruit growers in British Columbia and had, last year, secured the services of R. M. Palmer, of Victoria, to give the growers throughout the province some practical hints on packing and shipping, as a great deal of the success of their fruits in outside markets depended upon the proper packing of the same. Manitoba and the Northwest now offered a large market to the fruit grower, and with the shipping facilities afforded and the superior fruit grown in this province, he failed to see why British Columbia growers should not control the market.

* * *

Judge J. B. Forbes, of St. John, New Brunswick, arrived on a visit to the city this morning by the Rosalie, and is staying at the Dominion. He is well acquainted here and expects to remain in the city several days. Judge Forbes was created a Q. C. in 1881 by the Earl of Derby, and has always taken an active interest in politics. During the contests of 1895-96 he was secretary of the Confederation party, and unsuccessfully contested St. John for the New Brunswick assembly in the Conservative interests in 1872. He has been a member of the Presbyterian General Assembly of Canada for many years, and has served on some of its most important committees. During the sessions at Vancouver he took a prominent part in all discussions.

* * *

T. Seward, a pioneer of British Columbia, is in the city, a guest at the Dominion. He came to the province in 1858, after mining in California for eight years. He joined in the rush to the Fraser river, and was also among the first to reach Cariboo. Returning to Victoria, he was present when Sir James Douglas delivered a speech, his introductory words being: "Gentlemen, I deplore that you have left your quiet homes and came up here and haven't found the Fraser as rich as we anticipated. But I will advise you, one and all, to see the elephant, for I firmly believe the country is full of gold."

* * *

Mrs. C. B. Rabson, who has been in the city several months in the interest of her late husband's estate, leaves for Atlin to-night on the Amur. Mrs. Rabson has made many friends while in the city, who regret her departure.

* * *

P. J. Pearson, of Chemainus; Arthur P. Church, of Denver, Colo.; W. N. Jones, C. E., of Portland, Ore.; E. Dighton and wife, of Spokane; and A. Woodward, of Seattle, are among the guests of the Dominion hotel.

* * *

William Bryce, circulation agent of the Colonist, underwent an operation at the Jubilee hospital yesterday morning. His right leg was amputated two inches above the knee. The operation was in every way successful.

* * *

J. D. Laidlaw and wife, and Mrs. W. E. Weller, of Waitsburg, Wash., are among the guests at the Dominion hotel.

Hon. E. Dewdney and H. M. Hills were among the passengers from the Sound this morning.
